Truman To Give Nation Drastic Program To Meet Crisis

President Will Address Nation At 10:30 Tonight

National Emergency Proclamation To Be Forecast Is Report

By ROBERT G. NIXON
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 15.—President Truman will tell the nation tonight that it must rearm at utmost speed because Far Eastern Communist aggression threatens to engulf the world in war.

The chief executive will outline some of the sacrifices which must be made in these troubled times and may even order a 90-day price-wage freeze on the economy.

Officials said the president has prepared the grimmest message of his five and a half years in the White House to tell the U. S. of the Soviet-backed Communist threat of the free world.

'May Shock Country'

One top official said disclosures in Mr. Truman's address "may shock the country."

The president will deliver his gravely-worded message to the nation in a half-hour radio and television address at 10:30 p.m. (EST).

For several days the White House has been reported leaning toward only selective price-wage

RAIL STRIKE EFFECT ON CHICAGO POSTOFFICE

—Acme Telephoto

CHICAGO—A typical scene throughout the city's postoffices shows thousands of parcels held up as a result of the railroad switchmen's strike. Postmaster General Donaldson ordered severe restrictions, particularly in Chicago, St. Louis and Washington.

Wildcat Railroad Strike Forces Mail Restrictions

WASHINGTON, Dec. 15.—(INS)—The wildcat railroad strike is going to provide a lot of people with ready made alibis when their Christmas cards and presents fail to arrive.

An embargo, starting today, halts post office acceptance of cross-country and north-south mail except sealed first-class matter weighing less than eight ounces and daily newspapers.

No mail in the restricted categories will be accepted in Chicago, St. Louis or Washington for delivery outside of nearby surrounding areas. But delivery of any mail will be made in these cities locally or in the immediate area.

Post offices located in 15 eastern states will refuse mail in the restricted categories destined for anywhere outside of these states.

Parcels Refused To West And South States

In a directive received this morning, Postmaster William R. Hanna is ordered by the Postmaster General to refuse to accept packages to points in the south, midwest, and far west, or any packages for foreign countries which will pass through these sections.

Only first class mail matter, newspapers, and packages containing medicines, drugs, and surgical supplies, air mail, and air parcel post are exempted from this order.

The only states for which parcel post matter is now being accepted are the New England states, consisting of Maine, Vermont, New Hampshire, Massachusetts, Connecticut, and Rhode Island, and the states of Pennsylvania, New York, Delaware, Maryland, Ohio, Indiana, Michigan, and Illinois. Parcels were refused to all other points here today, due to the fact that the Post Office here does not have any space in which to store them.

While Christmas cards, bearing only a two-cent stamp are being accepted, they will be sorted out and laid aside until the embargo is ended, the Postmaster stated. This will mean additional work on the part of the local post office staff, it is stated.

Central Church Site Sale Will Be Acted Upon

Congregation Called To Take Action On Tuesday Evening

Members of Central Presbyterian church will meet in a special congregational meeting on Tuesday, December 19, at 8 o'clock P.M., in the First Presbyterian church, North Jefferson street, this city.

The purpose of the meeting, as announced in the call issued by the official board, is to consider and vote on the resolution to sell all the church land located in the First ward, this city, being the former site of Central Presbyterian church, at No. 13 East Washington street, and to authorize the church officers to make and deliver a deed to the purchaser.

The funds realized from the sale of the former site will be used to help finance the construction of the new building which is now being erected just north of the city line on Route 18, in Neshannock township.

Shipment of structural steel for the new brick edifice has been completed, and it is expected that the work of construction will proceed rapidly as the weather permits.

Two Found Dead In Chicago Home

CHICAGO, Dec. 15.—(INS)—Two friends who were taking care of Glen Ford's Chicago home while he was in the hospital were found dead—apparently of carbon monoxide asphyxiation—in a tightly closed room when Ford returned.

Police discovered the bodies of Pedro De Alba, 49, of suburban Blue Island, and Henry J. Haufbaur, 46, yesterday when Ford was unable to unlock the front door.

The officers said a small heater apparently had exhausted the oxygen in the room.

Court Action Hope Of Halting Railroad Strike

Government Plans Contempt Of Court Action In Rail Tieup

(BULLETIN)
WASHINGTON, Dec. 15 — (INS) — Attorney General McGrath said the government will seek contempt of court citations today against the trainmen's union in an effort to end the spreading railroad strike.

McGrath told newsmen after a cabinet meeting at the White House that the action will be taken in Chicago and perhaps in Cleveland.

WASHINGTON, Dec. 15 — The government is planning swift contempt of court action today to end the spreading railroad strike but risks the same legal defeat it met at the hands of John L. Lewis last spring.

Top officials are hopeful, however, that the contempt move will terminate walkouts in Washington, Chicago, St. Louis, Birmingham, Baltimore Peoria, Ill., Minneapolis, and St. Paul, that have partially halted Christmas mail and threatened vital defense shipments.

No Mediation Effort

They said President Truman has no plan to try 11th-hour mediation and will allow the Army to seek court punishment of the railroad trainmen's union for striking against the government in defiance of anti-strike injunctions.

Federal courts in Chicago, Washington and Cleveland have issued temporary restraining orders against continuance of the rail stoppage and the Justice Department may seek similar decrees elsewhere. There are reports the strike may spread to Detroit, Milwaukee, Kansas City and other key cities.

The walkout of yardmen in five important terminals already has piled up freight and disrupted passenger traffic. Washington handles the Eastern Seaboard's north-south rail business, while Chicago and St. Louis are the clearing centers for east-west shipments.

Establishment Of Defense Production Agency Imminent

WASHINGTON, Dec. 15.—(INS)—Charles E. Wilson, president of the General Electric Co., today is about to become the nation's defense production "czar" as head of a super-agency now in process of creation.

President Truman is expected to announce establishment of the defense production agency either simultaneously with or shortly after his formal proclamation tomorrow of a state of emergency.

Wilson already has agreed to head the new agency which will have authority similar to the powers vested in the War Production Board in World War II.

WASHINGTON, Dec. 15.—(INS)—The Atomic Energy Commission announced today that a new atomic plant to produce Uranium-235 for use in A-bombs will be built on a 5,000-acre site near Paducah, Ky.

Returned Ambassador Gives Truman Report On Russia

By JOHN A. REICHMANN
(I. N. S. Staff Correspondent)

WASHINGTON, Dec. 15.—President Turman gets a direct and export report from Moscow today to guide him in his grim radio talk to the American people tonight.

Ambassador to Russia Alan G. Kirk, just returned from his post, conferred late yesterday with Secretary of State Acheson. He is expected to go to the White House today to give Mr. Truman a fill-in on his first-hand observations of Kremlin intentions in the world crisis.

Kirk brings back the views of his Moscow staff as well as of the western diplomatic corps with whom they associate.

The ambassador, ostensibly home on a Christmas furlough, returned at the request of the State Department.

This in itself reflects the government's concern over the world situation.

Kirk probably will adivse, too, on the form of a note being sent to Moscow this week on the possibility of a big four conference on outstanding problems.

Says U.S. Well Ahead Of Russia In A-Bombs Now

WASHINGTON, Dec. 15.—(INS)—The chairman of the Atomic Energy Commission has told Congress that the United States is "in a very strong position—well ahead of Russia" in atom bomb production.

The reassuring statement was made to a House Appropriations subcommittee by TEC head Gordon Dean in answer to a demand to know "what has happened to the three billion dollars plus" given the commission.

Dean's estimate was released today a few hours after the AEC announced that it had arranged

Chinese Make Strong Attacks On Beachhead

Believe Big Drive Toward Seoul Is Now Being Planned

By LEE FERRERO
(I. N. S. War Correspondent)

SEOUL, Dec. 16—(Saturday)—The first reported Chinese Communist attack below Korea's 38th parallel was hurled back Friday and other Chinese hordes launched a massive assault on the last United Nations beachhead in North Korea.

Communist troops of a 120,000-man Chinese army drove into the northern environs of Hungnam Friday night in their strongest attack to date on the dwindling northeast coast beachhead.

Apparently acting on previously announced Communist orders to destroy all U. N. forces in Korea, wave upon wave of fanatical Chinese Reds pressed American troops back almost into the sea.

Not Immediately Confirmed

Presence of Chinese troops south of the 38th parallel border between North and South Korea was not immediately confirmed by the Eighth Army in Seoul but an official air force announcement in Tokyo indicated the long-awaited Chinese invasion across the parallel had begun.

U. S. Air Force Mustang pilots reported that Chinese Red troops were turned back when they attempted to attack an American hilltop position near Chunchon, eight miles below the parallel and 43 miles northeast of Seoul.

Another strong Communist force, either chinese or North Korean, crossed the parallel opposite the North Korean border town of Haeju, 72 miles northwest of Seoul, the Republic of Korea (ROK) capital.

Giant Offensive Planned

Banguards of the main body of Red China's million-man invasion army, together with units of eight to 12 reconstituted North Korea Red divisions, appeared to be moving into an anticipated giant offensive toward Seoul.

The Mustang pilots said they had bombed, rocketed and strafed Chinese Red soldiers deployed for a storming attack on the Eighth Army's American-held hilltop position near Chunchong. The enemy was turned back in this action.

One of the pilots, First Lieut. James T. Farr, of Texarkana, Ark., said the Reds tried to deceive the Mustang flyers by using colored panels indicating the area was occupied by United Nations troops.

"Our air controllers detected the fraud and told us to attack," said Lieut. Farr. "We let 'em have it both in and out of their foxholes."

Report 38th Crossed

ROK Army sources in Seoul reported at 10:30 Friday night (8:30 a.m. EST) that 2,000 or more Red troops, moving southeast from Haeju at the top of the Ongjin peninsula, had thrust across the 38th toward Kaesong. The latter is 32 miles north of Seoul.

The ROK report, not immediately confirmed by the U. S. Eighth Army, said it was not yet known whether the enemy troops were Chinese or North Korean. It added, however, that these units were believed to be part of the main Chi-

ARTHUR MOMETER

There's ribbons of pink and of purple and red, and ribbons of emerald green, there's paper with stripes and with glittering stars and some with a winter scene. There are cards that are written in poem and prose, and note paper bordered with holly, oh this is the time when the folks are agog, the gift giving season by golly. So on with the packing and wrapping the gifts with ribbons and paper so gay, there isn't much time ere the Christmas morn comes, it's 36 today.

DA NEWC OBSERVES

A lot of motorists were caught in a predicament this morning. Yesterday the weather softened up and roads became clear of snow, so they had their chains removed. Late in the afternoon and evening, it snowed, followed by another downfall this morning, and the chains had to be put back on again.

* * *

Wonder what the fellows who had predicted a mild winter think about the present situation? Already more snow has fallen—and winter is not due yet until next week—than normally falls during an entire winter.

* * *

"It's an ill wind that blows nobody good" says the old axiom. Also it's an ill snow storm that brings nobody business. The photograph developers and finishers did a land office after the recent heavy snow storm and are still doing it according to word from one of them. Everybody it seemed wanted pictures of how high the snow was on their driveway and in the front yard.

* * *

Another project which seems to have become storm stayed, is the new bridge over the Neshannock from Grove street to South Jefferson street. No work has been done on the structure since the snow started on November 24.

* * *

Most of the night was again spent on county highways by cindering crews who were determined to keep traffic moving over the arteries, A. A. Martin, County Highway Superintendent reported. Slippery conditions were developing at 9 a. m. today and when needed, snow plows would be sent out on the roads. The unprecedented weather played havoc with funds set up for snow removal it is learned.

* * *

Boys and girls who have been fortunate to own sleds this present winter have been really getting their share of enjoyment out of the sleds. Others who are to receive them for Christmas can hardly wait to get the sled in action. Youngsters should make sure they ride on designated streets of the city.

Snow Is Moving Through Rapidly Says Weatherman

(By International News Service)

The tri-state area was in for a little unexpected snow today.

The weather bureau did not revise its forecast, which calls for light snow mixed with rain in the south portion today. However, it explained in a summary that a snow storm has been intensifying in Ohio in the early hours this morning and is moving on the tri-state district.

Snow falling over the western Pennsylvania area this morning was described by the weather bureau as moderate to heavy. But the storm is moving through the area rapidly and will have cleared by this evening, the forecaster said.

He said to expect a fall of about three to five inches snow on top of the accumulation of about four inches throughout most of the district.

The forecast calls for colder with snow flurries tonight and tomorrow, with the mercury dropping to about 20 tonight.

Expect Approval Of Mrs. Rosenberg

WASHINGTON, Dec. 15.—(INS)—Quick Senate confirmation was predicted today for the nomination of Mrs. Anna M. Rosenberg as assistant defense secretary after a Senate committee unanimously repudiated Communist front charges against her.

Sen. Byrd (D) Va., assigned to handle the nomination on the floor, said he will ask the Senate to act on it Monday or Tuesday—after printed transcripts of the closed-door testimony are available.

Byrd said he expects little debate after the unanimous repudiation by the Armed Services Committee of the Communist-front charge against Mrs. Rosenberg, supported only by a former Communist.

Ellwood Plant Makes All-Time Safety Record

ELLWOOD CITY, Dec. 15.—The all-time safety record in the entire American steel industry was surpassed Wednesday when Ellwood works of U. S. Steel's National Tube company reached 5,609,891 manhours of work without a single lost-time accident.

The plant's 3,300 employes have been on the job 318 days since anyone was kept from his job due to an accident at work. The new record continued piling up today.

Best safety record previous to this in the steel mills of the nation was a total of 5,598,367 manhours at the Pueblo, Co., plant of Colorado Fuel and Iron corporation, according to the records of the National Safety Council in Chicago.

A workman suffered a broken toe from a falling piece of steel at the Ellwood plant last January 29. He was off work two days. That was the last time there was a lost-time accident there.

J. E. Goble, National Tube president, today sent a telegram to Paul F. Mumma, Ellwood works general superintendent, congratulating the employes on the record. He said, "Such a performance can only be achieved by very great effort on everyone's part and I sincerely hope this splendid record will be continued."

Size Of Uranium Deposit Will Be Sought By Tests

CHICAGO, Dec. 15.—(INS)—President Fred G. Gurley of the Santa Fe railway has announced plans for extensive tests by his company and the Atomic Energy Commission to determine the size of a uranium deposit discovered last week in New Mexico.

The deposit of exceptionally rich uranium oxide ore—from which the basic material of the atom bomb is manufactured—was found by a Navajo Indian on a tract owned by the Santa Fe 12 miles from Grants, N. M.

Gurley added:

"We have some of the country's top geologists at work trying to determine what a mysterious reddish-brown ore in the same area is. It shows a 'hotter' count on the Geiger counter than uranium —yet no one can identify it as any known metal."

Strike Spreads

Chicago, Dec. 15.—(INS)—Yard engineers, firemen and conductors joined the wildcat strike of switchmen today on several important rail lines in Chicago, the nation's railroad hub.

A spokesman for the Pennsylvania Railroad said that approximately 550 yard crew engineers, firemen and conductors, none of whom belong to the striking Brotherhood of Railway Trainmen, have not reported for work since the switchmen struck Wednesday.

The Santa Fe Railroad said the 12 yard engineers and eight yard firemen—members of the Brotherhood of Locomotive Engineers and Firemen—did not report for work today.

A spokesman for the Soo Line said its yard crews failed to appear also and added that the railroad would consider the jobs of those failing to report "annulled."

The walkout has idled an estimated 25,000 workers in the Chicago area.

nese invasion force which had been moving down toward the parallel for many days.

The most critical phase of the Korean War thus seemed at hand as increasing thousands of refugees carried out a swelling southward exodus from Seoul to escape the oncoming Red avalanche.

Drive into Hungnam Area

Far to the northeast, meanwhile, Communist troops of a 120,000 man Chinese army drove into the northern environs of Hungnam Friday night in a massive assault on the last UN beachhead in North Korea.

Clambering over heaps of their own dead, successive waves of fanatically attacking Chinese surged to within two and a half miles of Hungnam, pressing American troops back upon that port.

Outnumbered troops of the hard-fighting U. S. Army's Third Infantry Division were forced to withdraw from Sinsong, two and a half miles above Hungnam and six miles southeast of the rail-industrial hub of Hamhung.

This was reported from the battle-churned U. S. Tenth Corps' beachhead by International News Service War Correspondent Bernard Kaplan at 10:37 Friday night (8:37 a. m. EST).

Kaplan's front dispatch said the withdrawal southeastward from Sinsong threatened to expose the right (northeast) flank of the assaulted Tenth Corps perimeter, including the vital Yonpo Airfield.

However, the dispatch added "American commanders are confident the attack will be contained."

One Unit Surprised

One of the U. S. Third Division's units was surprised and surrounded at Sinsong, Kaplan disclosed in a field dispatch received an hour earlier. He said an American tank platoon was sent to the rescue but itself became encircled by swarming Chinese who climbed atop the tanks and tried to throw grenades down their hatches. The tank platoon was forced back.

The offensive was launched Friday morning when two Chinese battalions, comprising some 3,000 troops, charged into the attack with weird yells and bugle blasts that pierced the cold air.

American warships offshore shelled the icy roads and hills down which the Chinese hordes swept into the onslaught. Carrier-borne Marine Corsairs blasted and strafed the enemy ranks throughout Friday and into the night.

Chinese Heedless of Casualties

"Their dead are strewn all over the ridges," reported one returning marine flyer.

Heedless of staggering casualties, the Chinese kept charging in through the day under cover of mortar barrages. Some of the attacking Reds were armed with captured American Thompson submachine guns.

The U. S. South Korean, Puerto Rican and other troops of the Tenth Corps were also threatened by Red guerrilla bands which had filtered through the defense perimeter into the beachhead to attack the UN forces from the rear.

controls at this time on key defensive materials.

Some officials said, however, that the need for effective stabilization may result in the immediate general freeze with adjustments to be made sometime in the next three months when full administrative and enforcement machinery has been assembled.

Proclaim National Emergency

The president will announce the necessity for proclaiming a national emergency as the first step in mobilizing the nation's economy and manpower to combat Red China's intervention in Korea, and to meet the ominous threat of Communist armed aggression elsewhere, both in the Far East and in Europe.

Informed officials said the president will issue his emergency proclamation Saturday.

Other decisive steps to put the nation speedily on a near-wartime basis will follow this action swiftly.

Steps To Include

Officials said these steps will include:

1.—Immediate imposition of specific economic controls on essential defense materials.

2.—Creation of a super-agency to centralize all defense production problems, to be headed by Charles E. Wilson, president of General Electric, who was vice chairman of the War Production Board in World War II. Wilson accepted the post as industrial mobilization czar late yesterday.

3.—Rapid and large-scale expansion of U. S. military might and atomic weapons production.

Face Grave Dangers

A high official today said of the president's message tonight:

"The president will tell the country the grave dangers it faces and the steps that must be taken to meet them. He will then take the steps necesary to implement his program."

The president is expected to announce selective wage-price and other economic controls Saturday in the wake of his national emergency proclamation.

Officials said the president will make it clear to Soviet Russia that the choice of "war or peace" is up to the Kremlin.

Thomas Jefferson was 23 years old when he wrote the Declaration of Independence. He spent 18 days writing it.

Pa Newc Observes

Bessemer and other boroughs will have community Christmas trees for the residents to enjoy this year. Extensive preparations have been made in many rural communities to make the season an enjoyable one.

Due to some disease, skunks in the local area have almost become extinct, Pa Newc learns from a local fur dealer. Whereas in past seasons, he has received three to four hundred of the skunks pelts a year, this year, the intake has been reduced to below ten. The fur is becoming very scarce the dealer tells Pa Newc.

Taking off and restoring tire chains has almost been an endless task for motorists over the past few weeks. Motorists are hoping that some ingenious individual will come out with a new wrinkle that would facilitate the removal or placing on of the troublesome little gadgets which make for navigation over snow covered roads.

Quite a number of local residents have made provision for the district's feathered friends this year, by installing feeding places for the birds. Some fatty meat would not go amiss it is learned, to provide warmth for the birds.

Arrest Operator After Accident

Following an accident in the 500 block on Sampson street at 5:40 p. m. Thursday, Charles Bridges of R. D. 6 was arrested on a charge of driving while intoxicated.

Bridges was treated at the Jameson Memorial hospital for a laceration about the mouth and contusions of the left leg, below the knee. Russell Vogan, aged 30 years, of R. D. 6, a passenger in Bridges' car, suffered a fracture of the left ankle. He was discharged after treatment.

According to Policemen Richards and Bartoshek, Bridges drove a car which struck the parked auto of Joseph P. Witkowski, 542 Sampson street, and then ran head-on into a car driven by John E. Guido, 743 Butler avenue.

All of the cars were damaged.

City Sidewalks Are Being Kept Cleaned

City of New Castle owns considerable property in various parts of the city, hence employes of the department of property, over which Councilman Joseph F. Medure has jurisdiction, are kept busy keeping the sidewalks clean of snow.

RANSACK PARKED AUTO

Someone ransacked the parked car of Cal Tranquillo, 1010 South Jefferson street, of a flashlight and other articles last night.

POWELL-STEVENS EXCHANGE OF VOWS

Of interest to friends and relatives here is the marriage of Miss Shirley Jayne Powell, daughter of Mr. and Mrs. Henry B. Powell, R.D. 1, Renfrew, and W. Fred Stevens, son of Mr. and Mrs. Floyd E. Stevens, South Main street, Slippery Rock, Pa. The bride is the granddaughter of Mrs. William Jones of 1124 Hemlock street and the late William Jones.

The vows were exchanged on December 4 at 8 o'clock in the Butler First Presbyterian church. The ceremony was to have been held on November 28, the anniversary of Mr. and Mrs. Jones of New Castle, but was postponed due to the weather. Rev. Robert Hughes French, D.D., read the ceremony in a setting of gold and white chrysanthemums and candlelight. Traditional wedding music was played as the guests were seated.

Given in marriage by her father, the bride was attractive in a gown of white satin, fashioned with fitted bodice trimmed with Chantilly lace, and long sleeves tapering to points at the wrists. The full skirt extended into a Cathedral train. Her veil of illusion cascaded from a band of seed pearls, and she carried a colonial bouquet of white carnations. She wore a pearl necklace, the groom's gift.

Mrs. Gerald Wagner, as matron of honor, wore a gold satin gown and carried a colonial bouquet of flowers. Bridesmaids were Miss Miss Norma Furl, who was attired in blue satin, and Miss Ruth James, wearing a pink satin gown. Each carried a colonial bouquet.

Calvin Stevens served his cousin as best man, and ushers were William S. Powell, brother of the bride, and Robert Offutt.

One hundred fifty guests were received at the reception in the social rooms of the church. Mr. and Mrs. Stevens are now residing at 713 Lawrence avenue, Ellwood City, following their honeymoon.

INDO-CHINA NEXT?

Russia and China would undoubtedly like to keep U. S. forces bogged down in Korea. This is a rule that works both ways. Korea is important as a symbol, but Indo-China is crucial. The more Chinese MacArthur keeps bogged down in Korea the better.

A Chinese "liberation" of French Indo-China would make it difficult, if not impossible, to keep all Southeast Asia from falling into Communist hands. The fall of Indo-China would gravely menace the security of Indonesia, Siam, Malaya and the Philippines.

Indo-China is almost certainly next on Peiping's list. A few weeks ago Red China announced that Chinese in Indo-China were asking Peiping's help against French "persecution." General Wu insolently proclaimed in the UN China's intention to "liberate" Indo-China soon. And only a few days ago China denounced the alleged violation of Chinese territory by French guns and planes from Indo-China.

The charges are ominously like those that preceded Chinese intervention in Korea. They were preceded by the training of Ho Chi-minh's battalions on Chinese soil, and by a heavy increase in materiel supplied to Ho from China. Peiping has 200,000 Chinese troops poised in South China, 100 miles east of Indo-China. Ho's forces have Chinese artillerymen and technicians. A Russian military mission is reported at Nanning to supervise military operation of these forces.

France, with 150,000 of her best troops in Indo-China, has been clinging to a precarious hold, and incoming American supplies will not be sufficient to meet the Chinese threat.

TURNPIKE SPEED REDUCTION?

Recommendation by the Philadelphia Chamber of Commerce that the speed limit on the Pennsylvania Turnpike be reduced from 70 miles an hour to 60 should get favorable consideration from the Legislature.

The rising number of fatal accidents on the highway in which high speed was the principal factor makes revision of the present regulations and strict enforcement of a lower maximum speed limit imperative. The 70-mile ceiling is not only too high in itself but so far above the top speeds elsewhere that drivers seem to get the impression from it that the sky it the limit.

As a consequence, multiple smashups resulting when cars traveling at excessive speeds pile up on one another are becoming a growing cause of death on the Turnpike.

The highway is an engineering achievement of incalculable value to the commonwealth and the nation. But this is no reason for treating it as if it were a public race track, built exclusively for the amusement of speed-crazy autoists.

The Turnpike's usefulness should be enhanced by any move to increase the safety of those who travel upon it.

FRANCO ON THE PROWL

Generalissimo Francisco Franco of Spain hasn't changed much. During World War II when the Allies had their backs to the wall, the Spanish dictator began to agitate for the return of Gibraltar to Spain. At that time he was the avowed friend and ally of the Axis, and may have hoped that German troops would help his own forces recover Gibraltar. Now Franco seems to think the time is ripe to again push the same demand.

His demand occupied half the front page of Arriba, official Falangist publication. It was the culmination of a sudden two-week campaign in the controlled Spanish press, which went to some lengths to fan hatred toward Britain.

Franco said the British acquired Gibraltar "treacherously" 246 years ago. He admitted that it has no present value to Spain and is not worth a war. "It is a question," he said, "of a fruit that some day must ripen and fall."

Franco now claims to be a friend of the west and an unalloyed anti-Communist. His present move—variously interpreted as an attempt to raise the price of his anti-communism and as a red herring to take the minds of his people off their poor diet under his dictatorship—can hardly please any governments outside the Russian orbit.

CITY WOES

At the conference of the International City Managers Association in Houston most discussion was devoted to the increasing demands of a city government to spend money that it doesn't have.

Important and competent officials quit to take higher paying jobs. A contract cannot be let for a new building because contractors' estimates exceed the budgeted funds. A delegation of citizens walks in to demand some new service or to ask why atomic bomb shelters haven't been provided. The answer is simple: No money.

Revenue problems of the cities were difficult before the 1950 wave of inflation started. National and state governments were monopolizing more and more of the revenue field and cities were feeling the pinch. Now costs are rising much more sharply than income.

The Santa Claus myth has lived too long in child physcology, declares a professor. Also too long in Washington.

Those new "thinking robots" are invariably described as having more brains than man, a doubtful recommendation.

Children, says a Cleveland pediatrician, may be allergic to over-stuffed furniture. Eespecially if they get a toy tool set for Christmas?

In View Of News Of The World

By J. C. OESTREICHER, INS Foreign Director

German Politics Is Problem

Post-war decision of the western powers to permit the fullest possible political freedom in Germany threatens today to throw an unexpected roadblock in the path of European armament.

The chief political and military committee of the North Atlantic Pact organization has reached full agreement on integration of West European forces, creation of a supreme commander and participation of German manpower.

Will Be Studied

In logical sequence of events, this agreement will be studied by the North Atlantic foreign ministers in Brussels next week.

Assuming that after some soul-searching and probably certain reservations the foreign minister put their seal of approval on the agreement, what then?

Success will hinge entirely upon the amount of cooperation that the German government and people will give, and at present both segments of the German national life appear to be receding rapidly from the ideal of full collaboration.

It is one of those typically vexatious problems following in the wake of war that internal German politics should intrude upon the efforts of the western Allies to defend themselves against the menace of word Communism.

Free and Unfettered

The moment that Soviet Russia began to impose totalitarianism upon Eastern Europe and Germany, the Allies decided that the best way to counteract it and retain German friendship was to permit free and unfettered politics.

They even went so far as to allow the existence and temporary growth of Nazi-type political organizations on the grounds that the best way to dispose of would-be Hitlers was to expose them to nation ridicule.

This appears to have succeeded admirably. The few aspiring young men who thought they could from Hitler-type cabals and pave the way for a Nationalist "putsch" some time in the future have vanished into obscurity and gone back to work on farms and in factories.

Real Battle Lines

But the established political parties have formed real battle lines to a degree that the Allies probably never anticipated—particularly on the subject of rearmament.

Opposition to this step has come largely from Dr. Kurt Schumacher, leader of the Social Democratic party which is backed by trade unionists.

And there is no question that this bitter opposition, so largely shared by vast numbers of the German electorate, has had its effect upon the government policies of Chancellor Dr. Konrad Adenauer.

A few months ago, Dr. Adenauer presumably spoke for the nation in offering all-out German cooperation in whatever scheme the western Allies might devise for defense.

Today he has swung partly to Schumacher's view—not in opposing rearmament but in demanding equality for Germany in defense participation.

Must Be in Divisions

By this he means particularly the Germans are not to be used merely in so-called combat team strength but must be represented by divisions. The Germans naturally would like to serve under a German commander but doubtless would agree to Gen. Dwight D. Eisenhower, for example.

The German military mind is an extremely realistic one and the small "combat team" idea does not sit at all well.

They probably feel that in actual warfare, such teams would be of tremendous importance. But they also fear that in the present uneasy world truce, with maneuvers and mock games the extent of military display in Europe, the German teams might be relegated to the status of labor or service squads—anathema to heirs of great military traditions.

Secretary of State Dean Acheson and the foreign ministers attending next week's Brussels conference know they face a difficult task. Added to technical problems, there is now the troublesome one of German politics. These have vexed Europe and the world on countless occasions in the past and have not lost the capacity to do so again.

Taxes are most important things
To rulers, emperors and kings.
For no excuse are they delayed.
Upon the date they must be paid.
And subjects all, despite their need,
Must do what governors have decreed.

Obedient to the summons sent
A man and wife to Bethlehem went.
Joseph and Mary meek, and she
A mother very soon to be;
Arriving late, and with a morn
Her child was in a stable born.

For taxes by an emperor sought
A change upon the world was wrought.
That infant, shepherds went to see,
The Prince of Peace was born to be,
Greater today than all of them
Who signed the roll at Bethlehem.

Folks Of Fame

Born in Collinsville, Tex., Nov. 21, 1869, William H. (Alfalfa Bill) Murray lost his mother when he was two years old. At 12, he ran away from home, picked cotton, chopped wood, worked in brick yard and on a farm; then taught school for five years. He then became a newspaper editor and was admitted to the bar in 1895. He served in the 63rd and 64th congressman and was governor of Oklahoma, 1931-1935, after which he retired. He is the author of a number of books, among them "Essays on Pocahontas and Pushmataha," "Rights of Americans Under Federal Constitution" and "Uncle Sam Needs a Doctor". His nickname: "Alfalfa Bill".

Maurice Costello, popular actor of the screen's early days, was born in Pittsburgh, Pa. He was on the stage for 18 years before beginning his screen career. Some of his early pictures were "A Tale of Two Cities," "Let No Man Put Asunder," Week End Husbands," "Johnny Get Your Hair Cut." the Shamrock and the Rose" and "Camille. "Hollywood Boulevard" is the last listed. Two daughters, Dolores and Helene, are former screen stars. He died Oct. 30, 1950.

The Parent Problem

By Garry C. Myers, Ph. D.

TEACHING CHILD MANNERS

Children who grow up with parents who are cultivated and refined may be considered mannerly at a formal ball or when they attend a party supervised by adults or when adult guests visit these children's homes. Yet these same children in hundreds of situations with other children not supervised by any adults or adults whose approval they especially cherish, may be very rude. These children may have only the veneer of good manners. The tests of good manners are kindly feelings and consideration toward all other persons in all situations at all social levels. In the last analysis, good manners come from the heart. Now what's in the heart at any time is the residue of all thoughts and acts and feelings up to then.

Parents who are themselves very sensitive to such good manners, may be so eager for their children to get the veneer of good manners that they may not be much concerned about cultivating in their children the heart of good manners to the degree that these children will always feel deep regard for all other persons and their rights and feelings. Children, therefore, from well-to-do, refined homes, who might observe the nucleus of social grace at a banquet or ball, might also be boors when on a bus or trolley car on the way home or in some other public places, including a moving picture house.

Good Manners

No economic or social class has a corner on the heart of good manners. Yet one might often observe the heart of good manners among the so-called less-privileged families, since the children there have usually had fewer luxuries, more denials and more discipline. By and large, the nation over, children of the better social-economic levels, even of the better eductaed, have been less inhibited than children of the less privileged, and sometimes vandalism and boorishness are more prevalent among the former. The parents among the privileged generally have been more ready to accept and practice the doctrine of excessive self-expression, which has been so popular over our nation the past several decades. The assumption seems to be that "With our children's background and their exposure to culture and refinement, they will inevitably take on good manners. They don't need restraints to this end, they need freedom to express themselves and thus grow in personality"—no matter how much they might hamper self-expression in other people.

But no growing child can gain nearly ideal respect for most or all other persons and regard for their rights and feelings, who has not acquired self-restraint; and how can self-restraint be acquired except through some early restraints from without?

True, wholesome regard for others doesn't come alone from outside restraints and later self-restraints. It's a positive feeling and attitude. Nor can such feelings come without wholesome self-restraint. So, therefore, the heart of good manners presupposes adequate restraints plus good example, positive suggestion and practice of good manners with satisfaction. My bulletin, "Good Manners Make You Likable," may be had by sending a self-addressed, stamped envelope to me at 235 East 45th street, New York, N. Y.

RUDE AWAKENING?

Just Odds And Ends

By HENRY McLEMORE

Will some reader, kind or unkind, please tell me why a man's age is measured by the kind of job he has . . . It's a fact, but why? . . . Let a man become the president of a bank or of a university, or a three-star general, at the age of 46 or thereabouts, and he'll invariably be referred to in print as young.

On the other hand, have you ever heard of a 46-year-old Western Union messenger being thought of or referred to as young? . . . The same goes for baseball players, truck drivers columnists, and fireman . . . Yet, in my book, 46 is 46 . . . The years are there, brother, whether you're sitting behind a mahogany desk or tooling a truck and trailer down No. 1 highway.

I am quite sure that the entire reading public of the U. S. is heartbroken over the rift between Liz and Nicky, meaning the beauteous gal who jilted Glenn Davis in favor of a boy whose papa owns a mess of hotels . . . Most of us Americans had become as accustomed to stories and pictures of Liz and Nicky's wedded bliss as we were to our morning coffee . . . To think that this marriage, which gave every promise of lasting a full two years, has gone on the rocks in such a short time.

But on the brighter side, wasn't your heart lifted to the very clouds by the pictures of the Duke and Duchess of Windsor a-necking on the deck of the Queen Elizabeth when she docked in New York recently, thereby putting an end to the rumor that they had grown tired of travelling half a million miles a year together.

I must say, though, that the Duke, judging by the pictures of the royal smack, is a second rate kisser . . . The average 19-year-old soda jerk or high school fullback can outkiss his Royal Highness from here to yonder . . . What the Duke lacks is early training in the now long forgotten rumble seat . . . Speaking of rumble seats, do any of you middle-aged folk remember double dates and how the other fellow tried to get you to drive so he could have the dear, wind-swept privacy of the rumble seat . . . I have had boys trust me at the wheels of their fathers' cars when it was even money that I would plunge over the first cliff or steer into the nearest tree.

Why are people who have a hard time going to sleep proud of it? . . . You never hear men who go to sleep as soon as their heads hit the pillow talking about this knack . . . It is those of us who toss and roll and smoke another cigarette and turn on the light to read another chapter, who talk about it all the time . . . We clutter up interesting conversation by insisting on giving a blow-by-blow description of what happens to us when we go to bed and can't go to sleep . . . How many people care to listen to a fellow tell about how he can't go to sleep? . . . My guess is none.

Among the people who annoy me to death are owners of foreign make cars . . . Just because they own a car that is uncomfortable, has the drive on the wrong side as far as this country is concerned, and have a devil of a time getting spare parts, they can hardly drive the thing for acting superior . . . It would serve these snoots right if all they could ever ride in was a foreign car . . . They'd be walking half the time, or bumming rides from owners of American cars.

Let 'em go to Europe and see what kind of cars Europeans try to buy . . . Made in Detroit, if they're interested.

One Man's Opinion

By Walter Kiernan

It looks like the Supreme Court is protesting our freedoms so well you can't tell who's threatening them.

As we understand it now, an American is privileged to go to Korea to fight Chinese Communists but he's got to be careful about annoying the native variety at home.

But one of our current oddities is that no one shouts more often for the bill of right than the fellow suspected of traveling with the lefts.

And I still think a fellow who won't answer a question like "are you a member of the Communist party?" is more concerned with his own constitution than the constitution of the land.

The court may say a man doesn't have to incriminate himself but when a hit-and-run suspect is asked, "Do you drive an automobile?" And he says, "I refuse to answer," it's time to inspect his fenders for dents.

This may not be the liberal stratospheric approach to reality but it's kind of satisfying and usually works.

Try And Stop Me

By BENNETT CERF

Hollywood is like that department: In 1940, Jack Buetel worked opposite Jane Russell (if you call that work) in "The Outlaw," and gave so satisfactory a performance that Producer Howard Hughes signed him to a long-term contract. For ten whole years his only task was to collect a hefty salary check once a week, but Hughes finally ordered him to assume a featured role in "The Best of the Bad Men."

Buetel gamely announced "They've cut short my vacation, but I'm ready."

Judging by the speed with which new models of jet-propelled airplanes supersede one another, a single hour should soon suffice to transport a passenger from 38th Street and Broadway to the 38th parallel in Korea. Somebody at an air base recently asked the commanding officer, "How can a layman possibly tell these models apart?" The C.O. explained tersely, "If you can see them, they're obsolete."

From Me To You

By MESEEALL

Some government employees agree with the thinking that some of us have . . . too much waste in Federal Government offices . . . and to enlighten our thinking along that line a letter was written by a young lady . . . now a government employee which reads in part: . . . "I want you to know how much I enjoyed the take-off of the 23rd Psalm in your recent column. Since I am a government worker, I know only too well how true it is. I worked in a large office . . . where buck-passing and apple-polishing were so prevalent, you had to duck when you walked down the hall. The average worker sat at his desk only when he could be spared from the conferences in the washroom. The supervisors kept busy by taking mental notes on the number and length of washroom visits and candy-counter trips . . . Now I am in a branch where the workers are slightly more conscientious, they have only advanced to the point where they sit around and gripe about the unnecessary activities in Washington.

* * *

"I could write a book . . . I'll confess, I enjoy the salary I get, and the vacations, even the ribbing but I am entirely in favor of a complete airing of the whole business. I'm sure the boys in Korea could reap many advantages financially with a drastic cut in Federal employment!

* * *

There it is . . . people who are in Federal Government offices know the score . . . and if H. S. T. thinks he has them all in the palm of his hand . . . and attempts to write them letters such as he is in the habit of doing . . . Some might resent such attention.

* * *

Now is not the time to split open political differences . . . There is a definite job to do . . . wrong is wrong . be it either one of the big political parties. After we have made America safe for our type of democracy . . . we'll be in favor of investigations. Action, not talk, is needed and each good American citizen has a job to do . . . keep your representatives in Washington going in the right direction.

They Say

NEW YORK—Gen. Dwight D. Eisenhower: "With unity, no power in the world can defeat us and we can live in peace."

LAKE SUCCESS, N. Y.—Ambassador Hernan Santa Cruz of Chile: "In 1950 it was Korea. Perhaps 1951 will see Formosa and Indo-China involved in this grand Soviet strategy."

MADRID—Spanish Foreign Minister Alberto Martin Artajo: "There is no real obstacle in the way of friendship and good understanding between Spain and the United States."

NEW YORK—The Rev. Dr. Daniel A. Poling, leading Protestant churchman who returned recently from the Far East: 'I believe the estimate of 800,000 to a million guerrillas in South China is not greatly exaggerated. They are responsible directly to Chiang and are ready and willing to aid in freeing China of the Communists."

Re-Examination Of McCarthy

(By HOLMES ALEXANDER)

WASHINGTON, D. C., Dec. 15.—Nothing succeeds like success unless it's excess—and somewhere in that truism lies the still-to-be-understood story of Senator Joe McCarthy, the man of multiple denunciations and omnibus activity about Communism in and near government.

Last week surrepticous nickels were being dropped into public telephone coin boxes at the Pentagon. People there were calling Joe McCarthy about Anna Rosenberg, the new assistant defense secretary who is under investigation for an alleged Communist past. But why McCarthy? The investigation is being held by the Senate Armed Services Committee of which he isn't a member and isn't even sitting in on the secret hearings. Even so, the calls are coming in to McCarthy.

Other nickels are dropping into coin boxes at the State Department from where McCarthy is kept in touch with situations of mystery and suspicion. "People say I hate the State Department and that its employees hate me," McCarthy muses. "But I couldn't operate if I didn't have friends over there. I wish I had friends at the Commerce Department and the Bureau of the Budget. I could do more good if I had." But why do informants phone McCarthy instead of the Loyalty Review Board or the FBI?

See What You Can Do?

Phone calls are made from all over the Senate Office Building by senators who want McCarthy's opinion of this case and that matter. Notes, documents and hot-potato gossip are brought to his office or handed to him in the corridors by older, higher-ranking colleagues who say: "Joe, I can't vouch for this and I don't want to get involved. But your head is already bloody. See what you can do with it." Yet why do responsible Republicans turn over material to a man who has said so much and thus far proved so little?

In this season of "reexamination" a time has come for some second thoughts on McCarthy and McCarthyism. He can no longer be dismissed as a passing phase or a Wild Man from Wisconsin. Most people in Washington are still leery about the senator and the "ism" that has taken his name. But a growing number of respectable people are willing to give and to get help at the McCarthy source, especially if they can do so sub rosa and without personal risk.

Far from having his feelings hurt by the arms-length treatment, the senator is tolerant and worldly wise about it. "Lots of new people have begun speaking to me since November 7th," he says. "I wouldn't call them converts to McCarthyism. If I was wrong before Election Day, I'm still wrong no matter how many Republicans I helped to elect. I don't blame anybody for avoiding the dirty work and for not wanting to be smeared by association with me."

Bolstered by Two Factors

McCarthy's peace of mind is bolstered by two factors—his bachelorhood and his mailbags.

"If I had a wife," McCarthy says, "she'd have left me long ago or gone nuts. It's easy enough to get up and denounce Commies like Joe Stalin or Earl Browder. But when you start digging into the names of left-wing liberals with Communist associations, that's different. They and their defenders don't answer your facts, but they dig into your private life for any scandal and embarrassment they can turn up against you. It's plenty tough."

McCarthy, it's safe to say, gets more mail than any lawmaker on Capitol Hill. It is overwhelmingly favorable which makes it quite different from the fan mail of writers, whether they're pro or con McCarthy. He doesn't attempt to answer all letters from outside Wisconsin, but even his home state exchange of letters falls far behind the calandar. At this writing he is still answering mail he got as far back as last May.

Both horns and halos have been affixed to the McCarthy brow, but never by McCarthy. He leaves the judgement of McCarthy strictly to others. A free and easy fellow, quick with friendship and not inclined to nurse a grudge, he lets the chips of criticism fall pretty much where they may. "Nothing you've written against me makes any difference," he says. "If 10 more writers started jumping on me I'd hardly notice them. So many are already jumping."

What manner of man is this? How did McCarthyism begin? What motivates McCarthy? How sound are his methods and how deep are his convictions? These questions have taken on some importance of late. I suspect that not even the senator could answer them all with full justice and infallibility. But an attempt to discuss them will be made in a forhcoming column.

Looking At Life

By ERICH BRANDEIS

Today I feel thoroughly ashamed of myself.

Yesterday I told you about the hurricane that struck our part of the country.

It knocked out the electricity and felled a few of my trees.

I felt disgusted because I couldn't take a bath, there were no lights, no heat, television or radio, and we actually had to eat canned food. Imagine!!

Then today I read a letter from Port Arthur, Texas.

It is from Mrs. Louise Waller, one of the founders of the Masculer Dystrophy Research Foundation.

With the letter she sent me a few clippings about that awful disease which keeps people crippled from childhood, is incurable and gets worse as time goes on.

Never again shall I bewail my own fate. Never again shall I complain about my itrvial little inconveniences. Never again shall I grumble and grouch over NOTHING.

In 1937, Mrs. Waller adopted a nine-months-old baby who had been abandoned in a Waco movie house when he was two weeks old. He was taken to an orphanage where Mrs. Waller saw him and fell in love with him.

He developed rickets and she sent him to a school for crippled children where they could take care of him while she went to work as a switchboard operator at an oil refinery.

Then it developed that he had muscular dystrophy.

Now the boy is thirteen and knows that he will always be crippled and never able to do the normal things that the average human takes for granted.

But neither Mrs. Waller nor James Raymond, her adopted son, has lost faith in life or in God.

They pray and make the best of what they have.

I grumbled because the lights went off.

But little James Raymond does not grumble.

"My little son is pitiful," writes Mrs. Waller, "but I love him dearly. He has been such a comfort to me, although he is afflicted. He goes to church every Sunday, although he is really not able to attend, but he insist on it. He has a special chair and is propped up. They just love him there.

"He has such courage and determination to live."

One of the clippings Mrs. Waller enclosed, contains the story of two young women, Sallie and Nadine Woods, who have also been crippled since childhood.

They have never known what it is to walk. They have never been able to play like other children, to dance, to live the normal lives to which we all think we are entitled.

But, instead of bemoaning their fate, they help others with letters and encouragement. They know that not much can be done for themselves but, by having started the Dystrophy Foundation, they hope that some day the dread disease may be conquered and that others will be spared their own sufferings.

Much publicity has been given to the heart and cancer organizations. Both are worthy and deserve our support.

But let us help the dystrophy sufferers, too. Write to Mrs. Waller, 1546 8th Street, Port Arthur, Texas, I am sure she will appreciate whatever you can do and will give you all the information you want.

State Police Say:

Hundreds of new drivers are taking to the highways every day across the state. The mere fact that a driver has successfully passed his driver's examinations does not place him in the expert driver's class. This great influx of inexperienced dirvers presents a special problem in highway safety, and the experienced operator should be alert for signs of inexperience in other drivers and regulate their driving accordingly.

Bible Thought

I will bless the Lord, who hath given me counsel . . . Because he is at my right hand, I shall not be moved.—Psalms 16:7,8.

Refuses To Reduce Bail For Accused Puerto Rican Trio

NEW YORK, Dec. 15.—(INS)—Federal Judge Sylvester Ryan refused in New York to grant bail reductions for three Puerto Ricans accused of conspiring to assassinate President Truman at Blair House last month.

Defense Attorney Abraham Unger claimed that the trio, Mrs. Carmen Torresola, Julio Pinto Gandia and Juan Lebron, were only by "coincidences" friends or relatives of the two Purto Rican revolutionaries who made the attempt on Mr. Truman's life.

Mrs. Torresola, held under 2000 dollars bail, is the widow of the would-be assassin who was killed during the Blair House attack in Washington. Gandia and Lebron, president and former president of the Puerto Rican nationalist party, are held in 50,000 dollars bail each.

Judge Ryan said he did not find the bail excessive "in view of the serious nature of the crime."

Mrs. Oscar Collazo, wife of the other gunman in the assassination attempt, was in court as a spectator. She posted two thousand dollars bond last weekend and was released.

Willow Run Plant May Build Planes

WILLOW RUN, Mich., Dec. 15.—(INS)—Edgar S. Kaiser, president of Kaiser-Frazer Corp., said today the company may go into air craft production for the Air Forces at the Willow Run plant.

Kaiser said the plan is still being formulated and no contracts have been signed with the government.

However, Kaiser pointed out his firm would not halt the manufacture of cars to take on the new job.

The K-F head stated the Willow Run plant, built during World War II for the manufacture of B-24 bombers by Ford, is large enough to produce planes and cars simultaneously.

Court House

Drunkometers Recommended

Grand Jury Asks Two Be Purchased

Lawrence County will have two "Drunkometers" if the recommendation of the December grand jury is followed.

In its findings, following the consideration of bills of indictment, the grand jury recommended that two be purchased, one to be used in New Castle and one in Ellwood City.

The grand jury found the condition of the court properties good but recommended the floor in court room 2 be improved to remove the hazard of two steps in it. The jury also recommended the county provide accommodations for tuberculosis patients. (This is being done, the county farm house having been taken over. Improvements will start shortly.)

Finally the jury passed a resolution of recommendation for District Attorney Sherman K. Levine and County Detective Howard C. Klebe for their work in cleaning up gambling in the county.

The resolution said in part "the grand jury wants to take this opportunity of commending very highly the efforts of the district attorney's office on the work that has been done in curbing and trying to clean up gambling and gambling devices in Lawrence County."

The final return of bills of indictment follows:

True Bills. Richard Stewart, operating a motor vehicle after the license was suspended.

Jerry Copperswaite, aggravated assault and battery.

Carl McKay, larceny.

Not a true bill. Clarence M. Hogue, driving while under the influence of intoxicating liquor.

DOG LICENSES DOWN

Apparently a lot of persons did not license their dogs in 1950. As of Thursday afternoon there had been 10,810 licenses sold in Lawrence County as against 11,338 in 1949. It is to be supposed the dog population is larger this year than last but the figures do not show it.

SALARY CHANGES

The county commissioners working with the other department heads of the county are about ready to release the salary increases they will grant for 1951.

Unofficially it said the increases will average about 10 per cent but this is not an "across the board" increase. Each job was studied and increases of various amounts given. Chief deputies' salaries were pegged at $250 per month. No increase is given to any appointed official who received $250 in 1949.

In volume the increase will approximate $15,00, it is said.

DAMAGE HIGH

A survey of the court house properties reveals the fact that the damage caused by the recent heavy snow will cost an estimated $4,000 to repair.

Some of the gutters on the court house roof were bulged out and must be repaired. A portico at the entrance to the chief clerk of the county commissioners' office was broken away from the building, the plaster in almost every room in the sheriff's home was damaged and walls and coverings in the two court rooms were soaked.

Over 700 Doctors Will Be Called For Draft Exams

HARRISBURG, Dec. 15—(INS)—State Selective Service headquarters today ordered Pennsylvania's local draft boards to summon a total of 733 doctors, dentists and veterinarians for pre-induction physical examinations.

They will report December 18, 19 and 20 at the state's six main induction stations.

Those accepted will form a pool from which an initial quota of 127 will be inducted, according to Lt. Col. Henry M. Gross, State Selective Service Director.

Affected will be medical men who took part in armed forces specialized training programs during the war or who were deferred to complete their training but who have not had at least 90 days military service.

Local boards will send 56 registrants to be examined at Wilkes-Barre; 113 at Harrisburg; 385 at Philadelphia; 179 at Pittsburgh; 23 at Erie; and 17 at Altoona.

Men in this group took part in a special draft registration October 16 after a critical doctor shortage was noted in the armed services.

Meetings Today To Study Indian Lore

Of special interest to students who are studying the life of the Indian in very early America, are the meetings scheduled this afternoon and evening in the Science Hall of Westminster College. Lecturers present for the day are Dr. Mayer-Oakes and James Swaugger, of the Carnegie Museum, Pittsburgh.

The former is working under the new 3-year project of the museum, under the direction of Swaugger. Before coming to Pittsburgh, he had acquired valuable experience in similar work in both Illinois and Oklahoma. He will give an informative lecture at 8 o'clock in the evening, explaining the work mapped out for this section during a program under the Carnegie Museum grant.

Added interest came with the finding of an Indian skeleton near Sharpsville in July, 1949, by Stanley A. Stewart. Both the curious and the interested were attracted to the spot with Orvis Anderson, president of the Mercer County Historical Society, contacting the curator of Carnegie Museum. C. W. Beerbower, local authority on Indian lore, also made many trips to examine the skeleton and objects buried with the body. He made reports to the history department of the University of Pittsburgh. It was not until October that James Swaugger made an inspection of the bones and relics found in the burial mound.

U.N. Assembly To Meet In Europe Next September

FLUSHING MEADOW, Dec. 15.—(INS)—The U. N. Assembly decided by a narrow vote Thursday to hold its 1951 session next September in Europe.

On a roll call vote, the result was 31 in favor and 16 against the transfer from the United States. There were 11 abstentions.

The most likely choice will be Paris, although Geneva is second favorite.

The Latin-American bloc swung the majority vote in favor of the proposal, which leaves an opportunity to complete the assembly buildings on the Manhattan site for the 1952 session.

The Soviet bloc voted for the European session. Argentina, Brazil, and Mexico among the Latin-Americans abstained. The rest of the 20 voted in favor. The United States abstained. France said before the vote that the holding of the 1951 session in Europe "will have great physcological importance" amid the international crisis.

'Your Legacy And Monument'

NEW YORK, Dec. 15.—(INS)—"In the countries where American military government teams were charged with administration, there has been no appreciable showing or growth in Communism," said Gen. Lucious D. Clay, standing behind a red, white and blue bouquet at the speakers' table.

"That is your legacy and your monument," added the general and sat down.

The alumni of AMG, plus their womenfolk, stood up and applauded. The rafters of the big ballroom rang soundly, chairs scraped and everyone sat down again.

"So I got out my uniform and had it pressed and I was going to wear it to the reunion tonight," said the attractive man on my right who, on close scrutiny, turned out to be my spouse. "And I could get into it all right, but I couldn't breathe, so I said what the hell—"

Very Interesting

"Well, that is very interesting, said the man with the curly gray hair across the table, who had come from Detroit for the reunion. "But when I tried to get into my uniform, I says to Belle here"—nodding to the buxom blonde on his left—"I says to Belle "if Uncle wants me again, I hope he gives me a trade-in allowance and $250 for new uniforms. I could get into the uniform, all right, but it wouldn't zip.'"

"We were stationed in Tuscany for a while," the thin, dark young man from Sacramento was saying earnestly to Belle, "and all the women there, young and old, had wonderful posture from carrying things on their heads."

"Yeah?" said Belle, "and what did that get them?"

"Well," said the thin, dark man, a bit bewildered by Belle's vehemence, "it got them a wonderful posture."

"Yeah?", countered Belle, "I can tell you what it gets those women: it gets them the privilege of carrying things on their head till they drop dead. Give me round shoulders and a red cap, every time!"

Practical Application?

"Yessuh, ah read 'A Bell For Adano'" said the colonel who had come all the way from Mississippi to see his old friends in AMG, "but ah could neveh find any practical application fo' its lessons in mah districts. Wha' ah was mostly stationed, the people didn't need a bell nearly as much as they needed plumbin' and sanitation, and I guess there isn't a book on plumbin' and sanitation."

"There was for chic sale," said Belle.

"Sure, you remember the public baths in Turin," the Detroiter argued with the former AMGer from St. Paul. "They were right around the corner from headquarters and down that little back street called via del something-or-other."

"No," said the stubborn man from St. Paul. "I don't remember where they were. I wasn't in Turin long enough to take a bath. I was only there two weeks."

"Now you take this party," happily said the Mississippi colonel, "it is shu' 'nuf typical of American military government. Everything has been snafu from the beginnin'. The martinis were hot and the soup is cold. Ah declare! It takes me right back lak ah never left Italy!"

Shook With Laughter

The man from St. Paul shook with laughter.

"Remember when w designated that insignia for the AMG?" He asked. "By God, we didn't miss a thing. It was an over-stuffed rocking chair on a dais."

"And so I said to the girl 'but all I want done is my laundry. Laundry', I says, and I spelled it out", came from the man on my right. "and then I showed her the bar of soap. And she started yelling and three or four men ran out of the house and they yelled, too. "'What do you take our sister for, a servant?' they screamed, and I just kept backing away and saying 'but all I want done is my laundry.'"

"And if Uncle Sam needs you again, what are you going to do?" the man from St. Paul asked the thin, dark young man.

"Well, I still got my address book," said the thin, dark young man from Sacramento.

Keep Light Burning When You're Away

"It is a good policy for people who leave their homes for a card party, motion picture show, or shopping trip at night, to leave a light burning in the home. By so doing, a burglar will not know whether you're in or out", Chief of Police Robert D. Hanna reported today.

how does it feel
NOT TO HEAR
At Christmas?

Stop a moment and think how you would feel if you COULD NOT HEAR at this most happy of holidays. The peeling of the Bells proclaiming this wonderful time of the year. The laughter, the cheery Season Greeting, the devout worship that makes Christmas mean so much to everyone of us.

No, it wouldn't be a very Merry Christmas if you could not hear . . . the crackling of the Yule Log on the hearth, the lovable sounds that come from the children on Christmas morn, the Winter Wind whistling along, carrying the joyful songs of the Carolers, *sounds* that are very much a real part of Christmas.

Some loved one of yours may be faced with the thought of Christmas without the hearing they deserve. Make it a real Christmas for them—a HEARING Christmas. Put a warmer glow in their heart and yours. How would you feel if *you* could not hear at Christmas. Remember, the joy of the gift is in the giving.

Hadassah Hears State Officer

Mrs. Sidney Munter Talks Of Youth Aliyah

A most inspiring and heart-warming address was given by Mrs. Sidney Munter, tri-state president of Hadassah, Thursday afternoon at 1:30 o'clock to members of the New Castle Chapter of Hadassah. The session was held in Tifereth Israel synagouge.

Mrs. Munter spoke on the subject of "Youth Aliyah". She recently returned from an extensive tour in Israel. Her talk included her impressions of Israel and the vivid picture she portrayed, told of the courageous and wonderful work Youth Aliyah is accomplishing.

A huge Youth Aliyah reception center is where the children in Israel first go. They are later sent to any of the five transit camps where they stay for a period of one to three months. Here they are trained so that they can go out into the world. Children from 62 countries have thus far been rescued, and thus far since Youth Aliyah's inception there have been 50,000 children accepted. At present Youth Aliyah is housing, feeding and educating 17,000 children, all between the ages of 14 to 17 years. This is the only age limit being accepted now, due to limited facilities. Orphans are accepted at any age.

Mrs. Munter concluded her address in telling about the vocational guidance school for girls where hot lunches are served to approximately 300 army men daily. Her talk, excellently given, was well received by the members.

Hadassah's meeting opened with a prayer by Mrs. Abe Cohen on Thursday afternoon. A beautiful welcome by president Mrs. Irving Nixon, in the spirit of Chanukah was given.

Reports were heard from Mrs. Hyman Frank, Mrs. Ed Buntman and Mrs. Eliah Kaplan. Mrs. Kaplan recently attended an educational seminar with Mrs. M. Fineberg in Pittsburgh recently and her report was thorough about all details.

The program of the afternoon was in charge of Mrs. Pierson Caplan, program chairman. She introduced Mrs. Harry Horlick, who gave a splendid tribute to Henrietta Szold, the late founder of Hadassah. The 90th birthday of Henrietta Szold's is being observed this month, and the local chapter took the opportunity yesterday for its commemoration.

Mrs. L. F. Kohn gave a complete report on a speaker's bureau meeting held recently in Pittsburgh, which she attended and where Mrs. Julia Aschner of New York, was the leader.

Youth Aliyah chairman for the program was Mrs. Gus Slovonsky, and hospitality chairman was Mrs. Ted Marlin.

A birthday cake centered the nicely arranged table and tasty refreshments were served at the close of the meeting. It was announced in closing that the Joint Study class will be held on Tuesday, January 2, with Mrs. M. Blau, of Hazelcroft avenue.

Still Seek Body Of Missing Man

Members of the Ellwood City Fire Department Rescue Squad were continuing their search today for the body of Jack Fray, of 300 Foch avenue, believed to have drowned in the Connoquenessing Creek, early Wednesday morning.

Conditions were bad today, because of the snow, but the men of the rescue squad were continuing their efforts to find the body, it is stated. Their efforts had proven unsuccessful early this afternoon.

WITH NEW CASTLE AFRO-AMERICANS

South Side Prayer Band will meet at the home of Mrs. Josephine Donell, 320½ Mahoning avenue, this evening at 7:30 o'clock.

Senior choir of St. Paul's Baptist church will present Rev. Anderson and his singers from the Tabernacle Baptist church, in a program, Sunday at 3 p.m. in the church.

Must Not Take Trees From City Property

Bodies Of Mother And Four Children Found In Auto

LOS ANGELES, Dec. 15.—(INS)—The bodies of a mother and four children were found in an automobile on Mullholland drive, three-quarters of a mile west of Topanga Canyon Thursday.

The mother, police said, had ended her own life and killed her children with carbon monoxide.

Three of the children were little girls, one a boy, police said.

Officers said the mother was about 30 years old, the boy about three and the girls ranged from about three to eight years. Police listed it as mass murder and suicide.

GIRL SCOUTS

Senior Troop 17

Senior Girl Scouts of troop 17 met Tuesday evening at the Walmo school with their leaders. Plans were discussed for a Christmas party at the home of Deanna Schooley, December 19.

The troop plans to join other scouts in caroling December 21. New games were played under the direction of Mary Jane Weyandt.

The group is New Castle's newest senior troop, as eight girls of Walmo completed the intermediate work in October under the leadership of Mr. Thomas Crenney. On November 7 the new troop was formed with Mrs. Glenn Weyandt and Miss Betty Reynolds as leaders. Their badge work was displayed in downtown New Castle during Girl Scout Week. The girls also constructed a float for the recent Armistice Parade.

Girls in the troop include: president, Nora McCrumb; secrettary, Deanna Schooley; treasurer, Sue Glenn; and time-keeper, Wilma Aiken. Other members are Elaine Frazier, Jane Bees, Joanne Bees, Ronalyn Mielke, and Betty Kay Campbell. The troop committee consists of Mrs. Ronald Mielke, chairman; Mrs. Paul Bees, treasurer; Mrs. M. W. Schooley, and Mrs. A. W. McCrumb.

Use Caution When Feeding Squirrels

While this snowy and cold weather prevails, Owen Fox desires to warn lovers of wildlife that they should use caution when feeding squirrels, who during their eagerness to get the food offered to them might inflict a bite if fed by hand, which may cause a serious infection later on.

It seems that every one knows how to train a chlid except it's parents.

They think that they are doing fairly well but you should hear Aunt Susan.

Granddad does not say much, because he notices a few things about Butch which do not speak any too well for granddad himself.

Fined $25 In Hit And Run Accident

Charles E. Nunnemann of Watertown, Mass., a salesman, was arrested this morning on orders of Police Chief Robert D. Hanna, and a charge of being a hit and run motor car operator was sworn to by the chief before Alderman James C. Brice. He was alleged to have driven a car which struck and damaged the parked auto of Nelson J. Lyons, 735 Court street, in East Washington street, near East street, at 10:40 p. m., Thursday.

Nunnemann's arrest came about in a peculiar way.

Yesterday, he was arrested for taking orders for beads without having received a license from the police department.

Mayor John F. Haven heard the case today, and refused him a permit to sell here then ordered that he be photographed and fingerprinted.

Pouring through last night's police reports, Chief Hanna discovered that Lyons had given police the license number of the car which struck his car.

Investigation by the chief showed the car was owned by Nunnemann, hence the charge was made that his car struck and damaged another, and he drove away without revealing his identity.

Taken before the alderman he was fined $25 and costs, when he pleaded guilty.

Reserve Officers Plan Yule Party

Plans were completed for their annual Christmas party by the Lawrence County Chapter of the Reserve Officers Association at a meeting last night. The party is to be held Friday night, December 22, at the chapter's club rooms at 8½ E. Washington street. Ernest McClymonds, president of the chapter, appointed Walter Conover to serve as general chairman for the event. Other members of the committee are Waldron Curley, Vincent Wadlinger and Howard Carlisle. It is planned that the party will be in the form of a tree trimming affair and gifts will be exchanged.

It was decided at last night's meeting that the chapter will participate in the Deshon veterans Christmas party which is being sponsored by the various veterans organizations in the district.

Poultry Tour Is Being Arranged

Plans are being made for a four-day bus tour to eastern Pennsylvania and Delaware, for poultrymen of the local district, reservations for which must be made by Monday, December 18, with the Butler County Agricultural Extension Association office.

The tourists will leave by bus on Tuesday, December 26, and will visit poultry farms in Lancaster and Delaware counties, where broilers are raised and processed for market. They will visit a large poultry dressing plant, and will see large poultry operations, which will be useful to those engaged in this line of endeavor here.

Jr. Hi-Y Will Meet For Christmas Party

Following an excellent dinner, there was a gift exchange and distribution of door prizes with Kathy Hofmeister, doing the drawing. Dancing was then enjoyed from 9 to 12 o'clock, in the main ballroom of The Cathedral. During the intermission, Betty Smith sang several lovely vocal numbers.

Leland E. Dennison was general chairman of the event, which proved most enjoyable.

Police Seize $300 And Numbers Slips In Raid

When Detectives Sigler, Boyle and Patrolman Llewellyn visited the Hallman home at 14½ East Home street at 12:35 p. m. yesterday, they seized $300 in cash, numbers slips, lottery sheets, coin-wrappers and record slips. It was the largest amount of money yet found in a numbers arrest here. Mrs. Eleanor Hallman was placed under arrest.

Detective Sigler swore to a charge of trafficking in lottery before Alderman Claude Mantz.

She waived a hearing for court.

Man Injured When Struck By Auto

LeRoy Jones, 60, of 606 Croton avenue, sustained injuries to his nose and body when struck at 8:15 a.m. today by an auto operated by Cecil C. Watt, Edenburg, R. D. 1, at Beaver and West Washington street.

Watt was driving his car from South Beaver, into West Washington street, and Jones was crossing the intersection when struck.

Tifereth Israel Cancels Services

Regular Friday evening late services at 8:15 o'clock, at Tifereth Isarel synagogue, have been cancelled due to the weather, Rabbi Jules Lipschutz announced this morning.

House Republicans Approve Resolution On Acheson Ouster

WASHINGTON, Dec. 15—(INS)—House Republicans today overwhelmingly approved a resolution calling for the ouster of Secretary of State Acheson and others in the State Department who are responsible for present policies.

The resolution, sponsored by House Minority Leader Martin (R) Mass., was approved after more than an hour of debate in a conference of House Republicans.

The resolution will be transmitted to President Truman. Martin said no formal legislative resolution will be filed in the House.

Collection Method Is Not Yet Known

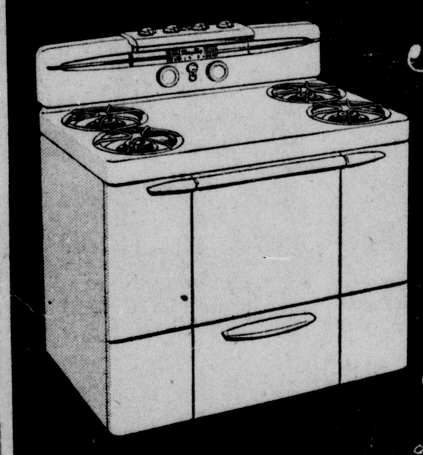

It is not yet known what method the city of New Castle will employ to collect the proposed 10 per cent tax on all amusement tickets, except those now taxed by the State.

The proposed ordinances places the collection in charge of the receiver of the Earned Income, or Wage tax, Louis McClung.

Whether it will be necessary for the city to employ a man to study the records of admission ticket sales, and then collect the amount, or leave the report and the payment up to the various places which stage amusements, is not known as yet.

'Just Ain't No Such Animal' In State

PHILADELPHIA, Dec. 15. — (INS)—The Philadelphia zoo's hunt for a "fisher," a weasel-like animal believed extinct in Pennsylvania since 1896, apparently is in vain today.

All indications are that there "just ain't no such animal." Seems as though the fisher reported loose near Glen Mills, Pa., actually was a pine marten which escaped from a fur farm owned by Mrs. Walter Orpneck, also of Glen Mills.

Mrs. Orpneck phoned the zoo today to request officials there to ask "people not to shoot the pine marten—he's a pet."

Will Not Give Up Fight In Korea

WASHINGTON, Dec. 15—(INS)—President Truman told a group of radio broadcasting executives Thursday that U. S. forces will not give up the fight in Korea.

Judge Justin Miller, chairman of the National Association of Broadcasters, said the President told the group:

"We are going to stick by our guns in Korea."

Miller heads the broadcast advisory council whose members called on the President Thursday. He said they had asked the President about the situation in Korea and that the President said U. S. forces will not voluntarily evacuate Korea.

Miller also said the President told them the whole world situation is "very critical."

The polonaise, a Polish dance, is believed to have originated in Cracow in 1574.

STODDART-CLARK BEAUTIFUL RITE

An arm bouquet of white roses and white mums complimented the bridal attire worn by Miss Jayne Stoddart for her marriage to William Fred Clark on Saturday, December 9.

The bride is the daughter of Mr. and Mrs. Bardin Gould Stoddart, 134 North Mill street, and the groom, who resides at 105½ North Mercer street, is the son of the late Mr. and Mrs. Edward T. Clark.

The young couple repeated their wedding vows in the First U. P. church at 7 o'clock, with Rev. Robert H. Mayo officiating before a host of friends and relatives. Lighted branched candelabra, ferns and white mums decorated the church altar for the rite.

Approaching the altar with her father, the attractive bride wore a gown of white slipper satin styled with a molded bodice which featured a nylon tulle yoke and dropped neckline. Tiny covered buttons were style notes of the bodice back, and long sleeves extended over the wrists. The full skirt of the costume terminated in a cathedral train, and a crown of orange blossoms and seed pearls held her scalloped, hand-rolled veil of illusion. Her only jewelry was a strand of pearls, and the traditional something old, new, borrowed and blue was observed by the bride.

Preceding the bride as matron of honor was Mrs. Fred E. Rowland, who wore with charm a candy green satin gown with rhinestones enhancing the lace yoke. A tiny scalloped peplum was a pretty accent of the full skirt. Yellow mums were worn in a halo for her hair and she carried an arm bouquet of yellow mums and roses.

Robert Jackson served the groom as best man, with ushers including William Eroe, Richard Baxter, Fred Rowland and Frank C. Miller, brother of the groom.

Mrs. John F. Love played "I Love You Truly", "Because" and "The Lord's Prayer".

A wedding reception for 100 guests was held at the home of Mr. and Mrs. Carl G. Gaston, 7 West Laurel avenue, following the ceremony. The young couple is at home at 7 East Leasure avenue following their honeymoon to an undisclosed destination.

Mr. and Mrs. Clark are graduates of the New Castle senior high school. The bride is employed as a bookkeeper at the New Castle Dry Goods store. The groom, a veteran of two years in the U. S. navy and a Westminster graduate, is employed at the United Engineering company.

Carols were sung by the junior choir of the parish under the direction of Miss Isabel Johnson, assisted by Miss Margaretta Hess.

Dulcie Arnold, Harriet Levy and Susan Chapman pleased with readings. Peggy Copson offered a piano solo. Wayne Frutchey served as announcer for the evening.

A gift exchange took place later. Mrs. Blodwen Frutchey received a lovely door prize. Delicious refreshments were served by the social committee at attractively appointed tables which were suggestive of the holiday season.

Sponsors Need Further Funds

Civilian Sponsors Announce Needs

In a short time, days perhaps, the Lawrence County Civilian Sponsors will need money.

The group was organized shortly before the 229th Field Artillery Battalion left for Camp Atterbury, Ind. Its purpose then and stil' is, is to furnish service men with articles and small comforts not usually furnished by the military.

Money Has Been Spent

When the 229th left and also when the 74th Chemical Unit left, there was no government insurance on the men. The Sponsors insured every man from the time he left New Castle until he arrived in camp.

For the 229th many articles have been furnished. An inter-com system was given them before the unit left, radio-phonographs were purchased for the two day rooms, furniture was purchased here and sent down .

Recently the Sponsors found that razors were needed by many of the men leaving in draft units. Each man who has left New Castle this week for service has been presented with a razor.

It was suggested that testaments and missals (depending upon the faith) should be presented to the men. The Gideons were informed of the need and testaments are being furnished to each Protestant man who leaves. St. Mary's church arranged to have each boy presented with a missal.

What has been done has been done with money contributed by local citizens. A total of some $1100 was contributed but this is almost gone. The Sponsors feel that what has been done should have been done, but more, it should be continued. This will mean more money.

Ivor V. Davis is the chairman of the Sponsors and Charles H. Johnson, Jr., the treasurer. Contributions to either of the men will be utilized in continuing the work of the Sponsors.

Boy-Sewer Cops Prize For Garment

NORWOOD, Mass., Dec. 15—(INS)—William F. Pudsey, 17, is not the first boy to study sewing at the Henry O. Peabody Trade School for girls in Norwood.

But no one could remember today another boy-sewer who copped first prize at the school for designing and making an original garment. Young William won $250 from a clothing concern for a woman's flare-backed lounging robe in tan and blue.

The U. S. dollar is the monetary unit of the Dominican republic.

Annual Yule Party Event

Penna. Engineering Corporation Workers Enjoy Dinner-Program

By now, the annual Christmas party of the Pennsylvania Engineering Corporation is a tradition.

For four consecutive years the party has been held in the Cathedral and there's this to say about the parties—they get better each year.

Thursday night, December 14, the party was held with nearly 300 present. It was an evening of good food, fine fellowship, an excellent floor show and a dance. Almost everybody who was eligible was there from the president down to the newest employe. In addition a number of the directors and their wives were present. For the evening the dining room was decorated in traditional Christmas fashion.

Jack Lynn was the toastmaster of the evening and opening the dinner asked Rev. Jerome Ahlstedt of Bessemer to invoke a blessing upon the gathering. The guests then "laid to" in the matter of cleaning up plates of turkey and other tasties served by the Wimodausis with a session of pep singing interspering the courses. Rev. Jerome Ahlstedt directed the pep singing and then came back for two excellent solos, accompanied by Mrs. Ahlstedt. For the pep singing E. E. Branstetter was at the electric organ and the piano.

Speeches were the only thing of which the party was short and nobody seemed unhappy about it at all. Larry Kiminkinen spoke briefly for the employed personnel and President William S. Wheeler expressed his appreciation to the employes for their loyalty and cooperation in the past years.

Ed Shaughency of Pittsburgh emceed a floor show that followed the dinner and for an hour the crowd saw a show that would have been at home on any stage.

Following the program the grand march took place and a dance followed until midnight.

The general committee was: Ralph McConahy, chairman; Lawrence Kiminkinen, Ray Krueger, Mrs. Dorothy Latshaw and Miss Ruth Jean Jolley.

American Freighter Collides In Storm Off French Coast

PARIS, Dec. 15 — (INS) — The American freighter Beaver State and the 3,658-ton Greek vessel Agios Spyridon collided off the northwest coast of France Thursday in a violent storm that brought calls for assistance from several other vessels.

The 7,000-ton Beaver State removed five crew members from the Greek ship, radio reports made no mention of the remaining 27 Greek crewmen.

The collision occurred in the Bay of Biscay near Ushant Island.

The storm swept the area from Brittany to the Gulf of Gascogne.

Earlier, the 8,200-ton U. S. freighter American Banker reported a fire in one of its holds but it later reported the flames were extinguished. The vessel was about 300 miles off the southwest coast of Ireland.

Lone Gunman Gets $2500 In Bank Holdup

LOWELL, Mass., Dec. 15—(INS)—A lone gunman, his pistol concealed under a newspaper, on Thursday robbed the Lowell Five Cents Savings Bank of $2500 but missed $50,000 because the teller became frightened.

The teller, Miss Nina Clare, 20, had just opened a $2,500 package of fresh currency, when the bandit entered the bank and strode casually to her cage. He put the newspaper on the counter, displayed the pistol and ordered:

"Give us the money."

Miss Clare was too terrified to make an outcry. She pushed the recently-opened bundle of cash across the counter. The bandit, obviously nervous, ran from the bank without finding the other $50,000 under the teller's counter.

Philadelphia Area Prime A-Bomb Target Says Army Official

PHILADELPHIA, Dec. 15. — (INS)—An army officer has warned that the Philadelphia area will be a prime target for atomic bombs if and when the Russians start unleashing them.

Lt. Col. Lawrence P. Devlin, of the Army Medical Corps, pointed out here recently that "twenty per cent of the nation's population and forty per cent of its manufacturing are concentrated within a 100-mile radius of Philadelphia."

Devlin addressed 900 members of 15 main line civic organizations assembled to formulate civil defense plans.

He suggested that civil defense units be set up according to regular army organization, grouped into seven battalions in each metropoltan-area county with overall command centered in a group headquarters.

Death Sentence Time Is Set For Man In Bombing

QUEBEC, Que., Dec. 15—(INS)—Quebec solicitor General Antoine Rivard announced today that Mrs. Arthur Pitre, 41, will be charged with murder in the time-bomb deaths of 23 persons aboard a Canadian Airliner 15 months ago.

Mrs. Pitre's brother, Genereux Ruest, 54, was sentenced yesterday to hang March 16 for the same crime. He constructed the bomb. J. Albert Guay, 32, who plotted the bombing is to hang January 12.

The Attorney General's Department charged that Guay plotted the death of his wife, Rita, a passenger on a Canadian Pacific Airlines plane; and that Mrs. Pitre placed it aboard the craft.

Mrs. Pitre is now held without bail on charges of perjury and of intimidating a witness, after being acquitted on a charge of attempted suicide.

Woman Traffic Cop Idea Runs Into Snag

PHILADELPHIA, Dec. 15.—(INS)—Philadelphia's plan to employ women—including housewives—as part-time traffic police at school crossings has run up against unexpected opposition.

The Philadelphia Home and School Council, representing 100,000 mothers, offers another idea.

Instead of a bustle brigade, the council suggests that retired policemen and firemen might better be given the job.

The council has sent a resolution to Public Safety Director Samuel Rosenberg encorporating their views on the subject.

Rosenberg recently asked city council for funds to employ women guards at busy crossings during school hours. He said the present police force was inadequate to provide necessary protection.

Urges Fluoride For Philadelphia Drinking Water

PHILADELPHIA, Dec. 15.—(INS)—A nationally-known dentist urges that Philadelphia become the first city in Pennsylvania to put fluoride in its drinking water.

Dr. Leroy M. Ennis, president of the American Dental association, points out that tests in several other cities shows fluoride reduced tooth decay about 5 per cent in those living in the area and up to 65 per cent for children born and raised there.

Dr. Ennis said, however, that the process is not a panacea for dental caries, but "is a tremendous step forward in the dental profession's fight against the disease."

Estate Of Chinese Disposed Of In One Sentence Will

PHILADELPHIA, Dec. 15.—(INS)—The $1,500 estate of a Chinese man was disposed of in a one-sentence will probated in Philadelphia by Registrar of Wills Joseph D. Burke.

The will was written by Moy Poy in Chinese on a two-by-three inch page from a loose-leaf notebook and is the smallest such document ever probated in Philadelphia.

Stock Market Situation Is Discussed By Babson

By ROGER W. BABSON
(Copyright—1950—Publishers Financial Bureau, Inc.)

BABSON PARK, Mass., Dec. 15.—Perhaps when everyone is excited as is true today, it might be well to look at past history. There certainly have been other times when the American people were even more disturbed. Probably most readers have weathered four stock market panics.

Four Recent Cycles

The first scare was in 1914 when the New York Stock Exchange was closed for some months, and investors were throwing over securities without rhyme or reason. Yet, after the stock market opened again the industrial averages rose 113 per cent while many stocks rose much more. Stocks continued high for about two years.

Roger W Babson

The second scare came in 1921, brought about by the unprecedented sudden decline in wholesale commodity prices. This sent many concerns into bankruptcy. Yet, it was only a question of readjustment, after which employment increased and the industrial averages climbed nearly 500 per cent, while certain stocks did much better.

The third scare came in 1929 due to the extreme over-expansion in the stock market, followed by the closing of thousands of banks—a situation which had never before happened. Yet, faith was re-established, and the industrial averages increased about 370 per cent, while then again, other stocks did even better.

The fourth break came in 1937, and it was caused by the Roosevelt administration attempting to put a planned economy on United States business. It was the first time this had ever been attempted; a severe market break followed, accompanied by unemployment, declining commodity prices and general fear. This lasted until the war broke out in Europe when England and the Allies gave our corporations large war orders. Of course, during 1940, 1941 and 1942 the market fluctuated downward with the state of war, reaching the low point in 1942. When the war outlook changed for the better in 1942, the market began to pick up and the industrial averages went up about 130 per cent.

The last scare came when the war was over, due to fear of unemployment. Everybody had gone to work during the war days; they liked their pay envelope, and did not want to leave their jobs. This fear of general unemployment caused merchants suddenly to cancel orders for merchandise which resulted in factories laying off more help. Contrary to all expectations, this unemployment was of short duration, and the stock market again began to climb. From 1942 to 1946 the industrial averages rose about 130 per cent.

Where We Stand Today

The country today is at a peak of prosperity era. To be exact, we are riding 37 per cent above the normal compared with 38 per cent below the normal in 1933. Our normal is based upon the average of the full cycle. How long the present prosperity will last, no one knows. During the next few years our fate depends upon whether the President and his advisors say "Yes" when they should say "Yes" and say "No" when they should say "No". I sincerely hope they get on their knees and ask the guidance of God when making these tremendous decisions.

We need have no fear of the things which have brought on previous depressions. These have been remedied. Also, the stock exchange margins have been greatly increased, which should be a steadying factor, as well as the growth of investment trusts. The two factors which could cause a collapse are the acts of the political bosses of the Kremlin, and the acts of the labor bosses of the United States. The next depression will be brought on by these two groups. It will come about some day, and wise are those who now have a reasonable amount in liquid funds to prepare for same. The point of this week's column, however, is to show that we came out of all our previous troubles okay, and we will come out of our present troubles okay if we will keep out of debt and follow God's teachings.

EMBARRASSING

ALPINE, Cal.—Alpine's volunteer firemen were embarrassed when the first they heard of a fire was when an outside company arrived to put it out. No one had bothered to call them. The volunteers are having bright stickers printed with their telephone number on it to be attached to all Alpine 'phone books.

Population Trend In Nation Shown

NEW YORK, N. Y., Dec. 15.—A further shift from rural to city life has occurred among Americans during the past 10 years, Metropolitan Life Insurance Company statisticians report. This trend is evidenced, according to the statisticians, by preliminary 1950 Census returns which shows that the rate of population growth has been least in counties with the smallest population.

Although the country's total popu'ation has increased by 14.5 percent since 1940, the counties with a population under 25,000 in 1940 increased only 0.2 percent. By contrast, the counties with 25,000-49,999 population gained 8.3 percent. The most rapid increase—19.5 percent—was in counties with 100,000 or more people in 1940.

In Well Populated areas

"This tendency of the people to concentrate more and more in areas which already are well populated continues a trend which has existed for many decades," the statisticians observe, "with the result that a steadily increasing proportion of the population is living in the larger towns and cities."

The counties with less than 25,000 residents in the south-central and the west-north-central agricultural regions actually lost population between 1940 and 1950. In California, however, which had an extraordinary population growth during the decade, even the smallest counties increased 27 percent.

The over-all growth of population in the past decade is found to follow a definite geographic pattern.

"The relative gains were smallest in the Northeast, and accelerated as one goes southward and westward," the statisticians note.

Local Watchmaker Spends 66 Of 81 Years In Business

Few in this district, or perhaps western Pennsylvania can boast of the record of one New Castle business man who has been cleaning and repairing watches for the past 66 years and still going strong with the end not in sight.

Eighty-one year old William C. Schmid, Sr., of 931 East Washington street, still has plenty of time on his hands after spending approximately 165,264 hours keeping a large number of New Castle residents on time. Mr. Schmid still maintains a shop at 320 East Washington street, tending to the needs of grandchildren and great grandchildren of many of his first customers.

At the age of 15, the active watchmaker traveled to Pittsburgh and entered apprenticeship at the watchmaking trade, returning to this city three years later to open business in the old Woods building, 14 North Mill street.

"Made About Everything"

"Jewelers and watchmakers in those early days," stated Mr. Schmid, made just about anything that was desired in the jewelry line and today, a number of prominent residents wear or carry items that were manufactured by our shop in those days when the city boasted about 10,000 population."

In order to secure metal in sufficient quantities to cater to the trades' demands, Mr. Schmid told a reporter that frequent canvasses of the county were made and old gold, silver, and other precious metals were purchased and then taken to the shop where they were fashioned into the desired piece that was requested by the customer.

Probably Oldest

In his day, the spry watchman has repaired thousands of watches. His longest stay in any one spot was 37 years in the shop located at the bridge on East Washington street, presently the Butz florist shop. He perhaps is about the oldest business man actively plying his trade in the city.

Mr. Schmid is a United Presbyterian, belonging to the Highland U.P. church where four generations of his family have attended. He makes his home with is equally as active as her spry brother. His wife was taken in death a number of years ago.

None of the children followed in the watchmaking trade, as one son, William, Jr., is with the Boyles Coal and Supply Co., while another Edwin C. Schmid, is a minster with the Pentecostal church. A daughter, Mrs. Caroline Osborne, resides in Johnstown. He boasts also of six grand children, ten great grandchildren, one of whom is 20 years of age.

Mr. Schmid reports that he has no regrets in life as he has always played the game square and gave an honest dollars worth to every customer whom he has served.

Four Hundred Attend Volant Buckwheat Supper

Second annual buckwheat supper was held by the Volant Lions' club in the Methodist church Tuesday evening.

People who had worked up an appetite for cakes and sausage began coming right on the designated hour and continued until three hours later, the last being served at 8:30. It was estimated that at least 400 were served, with the majority asking for buckwheats, very few seeming to prefer wheatcakes. According to the reports, nearly 200 pounds of sausage was consumed, along with batter made of 200 pounds of buckwheat flour, and 17 gallons of syrup. No record of the amount of coffee and butter was obtained.

With Lions baking and serving, everyone on the committees were more than kept busy. Later in the evening, some of the ladies present assisted the waiters in keeping the platters of food coming. In addition to the cooking and serving being done by the Lions, they also manned the dishwashing resulting.

Food Servers Take Health Tests

Food and beverage servers in New Castle receive a physical check-up at the City Health bureau, second floor, City hall. The tests are made by Dr. W. A. Womer, superintendent. After a sample of their blood is taken, it is checked. All persons engaged in handling food and drinks here must undergo an examination, either by their own physician, or the city health doctor, periodically.

Do Not Pay Unless Request Is Made

"Do not pay for packages delivered for a neighbor to your home, unless authorized. The packages may be "dummies'," Chief of Police Robert D. Hansa warned the public today.

SLEDRIDER KILLED

WHITEHALL, Pa., Dec. 15.—(INS)—A five-year-old Whitehall boy, John Caufield, was killed yesterday in a sledding accident.

Police said the young victim was coasting down the driveway of his home when the sled carried him into the street and under the wheels of a passing automobile.

Governor Dewey Urges All-Out Mobilization

NEW YORK, Dec. 15.—(INS)—Gov. Thomas E. Dewey urged last night the registration of every man and woman over 17 for national service in a mobilization to combat Russian attempts to conquer "the whole world".

The Republican leader demanded a vast military expansion and for designating 25 per cent of American productive capacity for defense production.

Proposals Made

Dewey outlined a program for United States survival in a speech at the annual dinner of the New York County Lawyer association and proposed:

1. Calling out all national guard troops to service "tomorrow morning".
2. Building up the army to "not less than 100 divisions".
3. Increasing the air force to "at least 80 groups".
4. Putting all naval vessels now in mothballs into service "without delay".

Dewey spoke 24 hours before President Truman was to address the American people on plans to meet the present emergency.

Must Abandon Illusion

Dewey said the United States must "abandon all those comfortable illusions which have allowed us to sink to this perilous point".

"Let us," he said, "get rid once and for all of the idea that Russia wants less than the whole world."

He warned that inflation could wreck the defense effort and uregd that the only way to deal with it "is to fiannce our rearmament program on a pay-as-you-go basis. We cannot save our freedom and also keep our personal comforts and luxuries."

In his proposal for enrolling all Americans over 17, Dewey said that "we must rally the total resoruces of our nation and the greatest of these resources are the men and women of America".

Camp Atterbury Christmas Party Being Planned

CAMP ATTERBURY, Ind., Dec. 15 — (INS) — Two hundred underprivileged Indiana children will be guests of Pennsylvania's 109th Infantry, 28th Division at an elaborate Camp Atterbury Christmas party next Sunday. The children, chosen by clergymen, will come from Indianapolis, Franklin, Edinburg, and Columbus.

The activated National Guard outfit will try to forget that the war emergency allowed them only skimpy Christmas furloughs and stage a party for youngsters that will include Sunday dinner, a tour of the area and gifts handed out by a GI Santa Claus.

The children, ranging in age from five to 12 years old, will be distributed throughout the regimental units.

The regiment for many years held similar Christmas parties for orphans in the Scranton, Pa., area.

Impossible To Cram College Boy's Feet Into Women's Shoes

PHILADELPHIA, Dec. 15. — (INS)—It's easy to dress a strapping football player to look like a woman—except around the feet.

So say the buyers of a Philadelphia department store which had the job of dressing the all-male cast of the University of Pennsylvania's famed Mask and Wig club for this year's production, "Count Me In."

"A bit of padding here, and a fur pice there, and the dresses look fine on the boys," according to store officials.

"But it's almost impossible to cram those college boys' feet into women's shoes and have them look right."

Union Firemen Name Hemenway Again

Annual election of officers for the Union township volunteer fire department, whicn took place Friday evening in the Scotland Lane fire hall, resulted in the re-election of all officers. Lawrence Hemenway was renamed president of the organization.

Other officers named are as follows: vice president, Bert Taylor; secretary, Peter Grittie; treasurer, William Hanna; trustee, S. A. White; chief, Jerry Ammons; first assistant, Paul Shannon; second assistant Paul Rishel; captain, Blake McFadden; lieutenant, Henry Grittie.

Plans have been completed for the annual Christmas party for the township children, to be presented on Thursday, Dec. 21, at the Union township high school building. A gala program has been planned, with Santa Claus to be on hand to treat the youngsters. Moving pictures and other entertainment will be enjoyed dring the evening. Children must be accompanied by their parents.

Neshannock Post Plans Annual Yule Party For Kiddies

Neshannock Post No. 315, Veterans of Foreign Wars, will play host to several hundred children Saturday afternoon at two o'clock in the post home, 126½ East Washington street, when the post will have its annual Christmas party for the children of members.

There will be Christmas caroling, led by the Rev. Thomas J. Jones, pastor of the First Congregational church, and there will be a big Christmas treat for each child.

The children of the Margaret Henry Home will be special guests at the party.

T. John Stoner is general chairman of the event, and announced today that all arrangements have been made to take care of the large number of kiddies expected.

MORAVIA

Dr. Jack Munyon of Pittsburgh will have charge of the church services at the Moravia Presbyterian Sunday morning, December 17, at 11 o'clock. There will also be Sunday afternoon services at 3:00 and evening services at 7:45, which will be in charge of Dr. Munyon and his staff.

The annual Christmas party of the Moravia Presbyterian church will be held on Wednesday evening, December 20, at 8:00.

North Beaver Grange meets Thursday evening, December 21. At 7:00 an oyster supper will be served by those on the home economic committee after which the regular grange meeting will take place.

State Constructors Select Officers

ATLANTIC CITY, N. J., Dec. 14. — (INS) — William C. Faylor, of Middleburg, Pa., on Thursday was chosen president of the Associated Pennsylvania Contrators, a statewide organization of the heavy construction industry.

Faylor was named by the 29th annual convention of the organization to succeed Donald B. Stabler, of Harrisburg, who was seleced chairman of the advisory committee.

J. Robert Bazley, of Pottsville, was eleced vice president at large; S. Howard Brown, of Lebanon, executive committee chairman; while A. Harden Coons, of Luzerne, and D. C. Fnston, of Philadelphia, were renamed governors of the group.

A. H. Blank, Erie; A. E. Block, Unity, and Max Hempt, Camp Hill, were named new regional vice presidents along with Alex Bailey, Phillipsburg; D. W. Kuhn, Elysburg, and Joseph Larkin, Philadelpha, who were reelected to new terms.

Library Books Renewed During Storm Now Overdue

Library patrons of the branches are reminded that while their books which fell due during the week of the big snow were renewed, the books are now due again and some are overdue. It is easy to forget them in the pressure of Christmas preparations; but when books are not returned promptly the book traffic is blocked, other patrons must wait for the books they want, and the library is put to the expense of sending overdue notices for the books.

The same is true of the main library books though it was closed only one day. Books renewed on Monday, Nov. 27, were due on December 11. Please return all overdue books soon.

The branches are now all regularly open as usual: Mahoningtown on Mondays and Thursdays from 12:30 to 9 p.m.; East Side on Tuesdays and Fridays from 12:30 to 9 p.m.; and South Side on Wednesday from 12:30 to 9 p.m. and Saturday from 9 a.m. to 6 p.m.

PHYSICIAN KILLED

WAYNESBORO, Pa., Dec. 15.—(INS)—A 63-year-old Baltimore physician was killed and three persons were seriously injured last night in a two-car collision near Waynesboro.

The victim was identified by state police as Dr. John Collinson. His wife, Mary, 60, and Thomas Chamberlain, 42, of Bethesda, Md., a passenger, and Henry Neiland, 24, of New York City, driver of the other car, were admitted to Waynesboro hospital.

Although it was called the War of 1812, most of the fighting took place in 1813 and 1814.

Hurricane Passers Strive For Third Win Of Season Card

Meadville High Provides Opposition Here Tonight

Meadville high school's basketball squad, sidetracked in its last two games, will attempt to right iitself tonight against the Canes in the George Washington junior high gymnasium.

Erie teams have thrown a wet blanket on the Bulldogs' brief winning streak. Erie Tech, city favorite, bumped off coach John Joy's Meadville team after the Bulldogs had handled Randolph and Greenville. Erie East then completed the city sweep with a convincing 14-point win at Erie.

The Meadville passers, two-point losers to the Hurricane in 1949, will return three of the same faces to the opening lineup, all over the coveted six-foot mark. Starting center Bob Bossard stands 6 ft. 4 ½in., forward Dave Kiser 6 ft. 3 in., and forward Bill Davis 6 ft. 1 in.

Strong Reserves

New Castle, shaky but proud of two consecutive wins, will again entertain at home. The Canes, slowed down considerably by the Duquesne zone, showed remarkable shooting improvement in finishing on top for their second successful overtime finish.

Coach Milanovich will match his "strong bench" against Meadville height. Substitutes have played vital parts in both New Castle wins; John McKay threw in five precious points against Duquesne and Cobau the clincher against East High of Youngstown, while pushing the usually obscure reserve role to the fore.

No Lineup Changes

Coaches don't usually break up a winning combination, so New Castle will undoubtedly line up to begin the game with the same Sansone, Vitale, Marinelli, Latko, Boak combination.

John Sansone connected on exactly half, six out of 12, attempts from the field last Tuesday to lead the Cane persentage makers, and Latsko on eight of 11 foul attempts to lead the squad in that department. The squad as a whole improved their overall shooting record by two per cent in counting on 17 field goals in 55 attempts.

The varsity squads will pair off following the 7 o'clock preliminary game.

Warriors Trim Pistons, 94-82

(By International News Service)

There are two new leaders in the National Basketball Association today.

The Philadelphia Warriors climbed over the idle Boston Celtics into first-place in the Eastern Division when they defeated the Fort Wayne Pistons last night, 94 to 82.

The Pistons, as a result of their setback, relinquished their first-place hold in the Western Division to the Rochester Royals, who were not scheduled.

The only other game last night saw the Tri-Cities Blackhawks beat the Syracuse Nationals, 78 to 69.

Dykes Careful About Trading

Will Not Sell Any Of Stars

PHILADELPHIA, Dec. 15.—(INS)—Manager Jimmy Dykes of the Philadelphia Athletics is hopeful today of strengthening his club for 1951 with trades, but not for "any bunch of humpty-dumpties" no other team wants.

Dykes, home from the big league meetings at St. Petersburg, Fla., said he is intertested in negotiating only trades that "will help our team".

"We're not interested in selling players," Dykes declared. "We could have sold first baseman Ferris Fain and pitchers Lou Brissie and Alex Kellner for a pile of money, but we wouldn't listen."

Just Too Smart

The cigar-smoking A's pilot said he came away from the major league session with one conviction —that present-day baseball men "think they're pretty smart cookies".

He said the New York Yankees, Detroit Tigers and Cleveland Indians approached the A's with trade offers involving Fain, Brissie and Kellner.

The peppery new manager of the A's cracked that the Yanks, Tigers and Indians were "all trying to get something for nothing".

Dykes said the cellar-dwelling A's sold Mike Guerra, 38-year-old Cuban backstop, because "we got a pretty good price for a catcher we had planned to get rid of anyhow".

Guerra was sold to the Boston Red Sox for an undisclosed price.

East Brook JV's Whip Mahoning

East Brook JV's defeated Mahoning junior high school 47 to 21 Thursday afternoon on the East Brook floor.

It was the first game of the season for the Mahoning team. P. Perrotta of Mahoning paced both teams in scoring with 15 points. Mayberry and McClelland each had 10 points for the winners.

Sportsmen Meet At Enon Valley

There will be a meeting of the Lawrence County Council of Sportsmen at 8 o'clock tonight at the Enon Valley Rod & Gun club. Representatives of outdoor organizations in the county of Lawrence comprise the council.

Noted Baseball Surgeon Dies

ST. LOUIS, Dec. 15 — (INS) — Dr. Robert Hyland, 61, noted baseball surgeon, died at St. John's Hospital in St. Louis Thursday.

Dr. Hyland was official club physician and surgeon for the St. Louis Browns and Cardinals. He was also consulted by many other notables of big-league baseball.

Death was attributed to a liver condition and uremia.

Universals Will Play Mt. Jackson Tonight

Universal A. A., winners of five straight YMCA league battles, will meet the Mt. Jackson Mounties tonight in the YMCA at 7 o'clock.

It has been announced that the Universals are entered in the Y Christmas tournament, and that the next Universal non-league contest will be played at East Palestine, against the East Palestine Merchants, Tuesday, Dec. 19.

Hails Abolition Of Bonus Rule

PHILADELPHIA, Dec. 15.—(INS)—Phillies' owner Bob Carpenter, Jr., today hailed the abolition of the bonus clause and high school "approach" rule by big league moguls.

Carpenter, who paid out greater sums in bonuses to young players than any other major league owner, was one of the most vigorous opponents of the conversial clause.

"The bonus rule," Carpenter declared, "was one of the worst things for baseball I know of."

The immediate result of the owner's repeal of the bonus clause, he predicted, will be a drastic lashing of sums paid young ballplayers to sign big league contracts.

Carpenter branded the bonus and high school rules as equally "detrimental and unfair to baseball".

Red Wings Top Boston Bruins

(By International News Service)

The Detroit Red Wings rode to their fifth straight victory last night as they clipped the Boston Bruins, 4 to 2.

Ted Lindsey and Gordie Howe notched goals in the first seven minutes of the game and after that the second place Wings settled back to play defensive hockey.

At Chicago, the National Hockey league leaders, the Toronto Maple Leafs, scored four goals in the first period and went on to beat the Blackhawks, 7 to 1.

Thinks Cardinals Will Have Chance

PHILADTLPHIA, Dec. 15.—(INS)—Manager Eddie Sawyer of the National league champion Phillies predicted today that the St. Louis Cardinals will domintae baseball "if war comes".

Sawyer said the Redbirds' pitching staff is comprised of men over 30.

"Other teams would lose their pitchers to the services sooner than the Cardinals," the Phils' pilot observed. "And that would result in their having the best wartime team."

TEMPLE WINS

GLASSBORO, N. J., Dec. 15.—(INS)—Temple's basketball team remained unbeaten today after trouncing Glassboro State Teachers 111-86. The victory was the fifth of the season for the Templars.

Westminster Meets All Colored Quintet On Home Floor Tonight

Westminster's Tall Titans will be out for their 70th straight home court victory tonight when they play host to an all-Negro team from Maryland State college of Princess Anne, Md.

The game is scheduled to get underway at 8:15 p. m., preceded at 7 p. m. by a preliminary contest between United Engineering of New Castle and the Titan JV squad.

Coach "Skip" McCain of the Hawks will bring an 11-man squad for tonight's contset. Though not a tall outfit, the Maryland quintet is expected to be fast and aggressive with an offensive attack similar to Westminster's "racehorse" brand of ball.

In one contest played this season the Hawks were defeated 65 to 54 by Hofstra college. Last year's Maryland State quintet romped to a record of 18 victories against only one setback.

Titans Undefeated

The contest will be Westminter's third game of the season. The Titans are undefeated with victories over Allegheny college and George Pepperdine. In both contests the Blue and White ran up 81 points.

Four starters in the Westminster lineup have averaged 10 points or better in games played to date. Don Meyers leads the Titan scoring parade with an average of 16 points a game followed closely by Pat King and Ed Halas with 15 points each, Jerry Sybert with 13 points and Johnny Abraham with a 10-point average.

Bears-Barons Clash Saturday

(By International News Service)

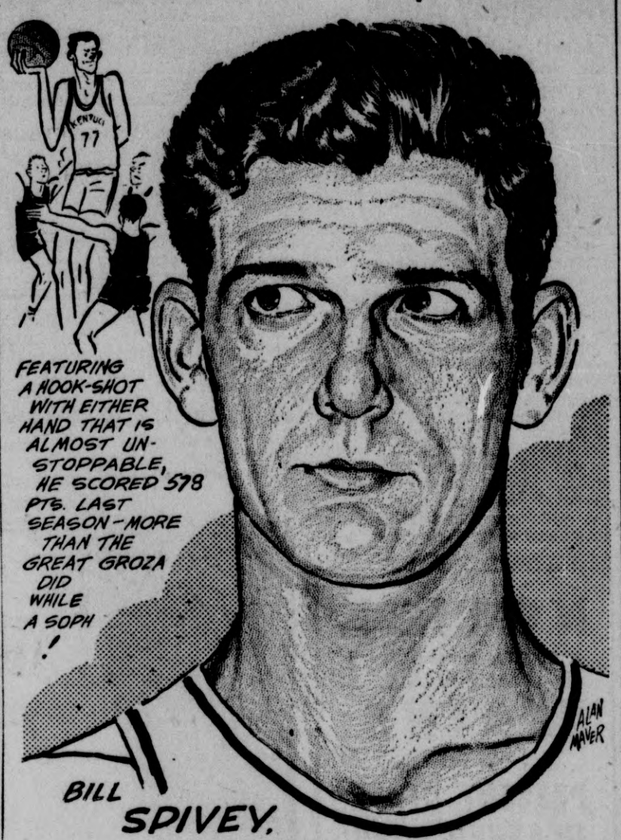

The Hershey Bears, completely rebuilt from last season and playing under a new coach, get their chance to move into first place in the American Hockey league's eastern division tomorrow night.

The Bears meet the Cleveland Barons, pacesetters in the western division, in Cleveland tomorrow night while the Buffalo Bisons remain idle. The Bisons hold a slim half game lead over Hershey.

The St. Louis Flyers and the Springfield Indians, both hopeleassly out of the running for top spot in their divisions, tangle at Springfield, while Providence meets the Hornets at Pittsburgh.

The Indianapolis Caps, last year's Calder cup champs, scored five final period goals to whip the Providence Reds, 6-2, in the only league game played last night.

HERE and THERE IN SPORTS LAND

SOME WONDER what has happened to wrestling here, inasmuch as only $246 in paid patrons turned out to see the grappling show Wednesday night, when a few months back the receipts ranged from $1,000 upwards to $2,000.

The situation is not so difficult to explain.

This is the Christmas shopping season. Food and articles have gone up in price while the dollar will buy considerable less than it formerly did. When one has only so many dollars to spend, he passes up unessentials.

The weather was not fit for man or beast. Bus transportation was slow and driving was hazardous on ice-coated streets. Sidewalks were slippery and pedestrians had to step cautiously.

And third, the psychology of people is such, they have no heart to cheer while our boys are dying in Korea and our country faces a state of emergency.

—o—

DURING THE GRAPPLING MEET it appeared for a time as though the referees would mix it up with the wrestlers.

Sandor Kovacs punched Referee George Martzo in the mouth. The blow was sufficient to cut Martso's mouth. . . During the tag match Len Hughes, who wore a moustache, threw Mickie Solomon to the floor. . . Near Webster, Mass., is a three-mile-long lake which has the longest name in the world. It is known as "Chargogagogmanchaugagogchaibunagungamaug." The word means: " You fish on your side. We fish on our side. Nobody fish in the middle." The name was bestowed by an Indian.

—o—

HOW WOULD YOU like to ride a cart behind a fast-stepping pacer or trotter and have King Winter's stiff breeze cut your face? This is what is going on daily at the Joe Rick Stock Farm along the Harlansburg road, where there are 48 head of horses, of which there are 10 brood mares who will colt beginning in January. In addition to jogging the pacers and trotters, Rick is breaking in a number of colts. All are fed heavily at this time of year and if they are not worked regularly they become ill. During the recent heavy snowfall the track was closed for two days. However, Rick got a bulldozer, cleaned off the track and every day the horses are jogged between 45 and 50 miles.

—o—

A PITTSBURGHER, who attended the wrestling show Wednesday night brought a report here that Elkins Brothers, New Castle's heavyweight, who headquarters in Washington, D. C., may box Bob Baker, Pittsburgh's best heavyweight, in a Madison Square Garden bout. Elkins won a KO there recently. Reports say he looked good. . . Some fans would like to see a boxing show. However, without a local drawing card or an outstanding performer, it is doubtful if it would prove a financial success. There is no sense in booking a good boy against a "push-over." The prices boxers charge nowadays are out of reach of the small club promoter.

Three County Floor Teams Seeking First Victories In Games Tonight

Three Lawrence county high school basketball teams will be seeking their first wins of the season tonight as the exhibition schedule hits the mid-way point.

Shenango, Mt. Jackson and Wampum have yet to win a game this year, and of the three, only Wampum is favored to cop its first tonight.

Shenango, Evans City and East Brook high schools will play on their home floors tonight, while Union, New Wilmington and Wampum take to the road.

Shenango takes on a Hopewell team defeated the Wildcats 38-27 just one week ago. Shenango will be seeking its first win after suffering three straight losses.

Seek Victory

Mt. Jackson will be searching for its first win against Evans City. The Big Red reportedly has another good team and the Mounties will have to go some to win this one.

East Brook will play its Alumni in the first game of a double header on the East Brook floor. East Brook Boosters will play the K. Pulaskis in the second half of the twin bill.

Union township bites off its biggest task of the season to date, when it travels to Freedom to meet undefeated Freedom high school, twice conquerors of Wampum by one-point margins.

New Wilmington will meet last year's Class C champion Fredonia team on the Fredonia floor. Remaining from last year's championship team for Fredonia is 6 foot 5 inch center Charlie Craig, who dumped in well over 500 points last year.

Wampum, loser of four straight ball games to class A teams in the Beaver valley, travels to Zelienople to take on the first team in its own class this season.

Ohio State May Get Brown

PITTSBURGH, Dec. 15. — The football grapevine carries the report that Paul Brown will quit as coach of the Cleveland Browns and resume college coaching after the National pro league championship is decided.

Four schools are listed as potential employers of the slight football tactician whose powerful Cleveland elevens captured four straight All-American Conference championships and may add the NFL title this year.

Some of the fringe talk is that Brown will return to Ohio State, where he coached briefly before World War II. But the guys inside say this isn't likely unless the whole athletic administration is tossed out of Columbus. They are definitely anti-Brown.

Wildlife Suffers In Inclement Weather

During the heavy snowstorm toward the end of November, young Tommy Clark of 1019 Hazen street, brought an injured female quail to Owen Fox, thinking that Owen might be able to save its life.

The bird had flown on the porch of the Clark home for refuge from the cold and inclement weather.

Mr. Fox found that the creature was in a starved condition and not much could be done for it, and it died the next day. Owen states that he found 22 beneficial birds, not one being a sparrow, that had been frozen or starved to death during that hard weather, also a number of squirrels lost their lives in like manner.

Railroads Use Busses To Meet Main Line Trains

WASHINGTON, Dec. 15.—(INS)—If you want to ride a train in or out of Washington, the chances are that you will wind up on a bus.

The wildcat strike of railworkers that tied up train service through the Washington terminal had the railroad companies resorting to automotive transport. They chartered busses to shuttle passengers between the capital and outlying stations in Alexandria, Va., and Silver Spring, Md.

Large Crowd At Shenango High Play Thursday

Not all good hits open on Broadway!

Members of the senior class of the Shenango high school staged an excellent production of "And Never Been Kissed" at the school last night with a capacity enjoying the hilarious antics of teen-agers in the play. A touch of the professional could be detected in the performances of the cast members as they unfolded the story of a young sixteen year old girl and her many swains.

Ushers for the evening included Hazel Gibson, Shirley Shelenberger, Helen Gurgacz, Connie Houk, Joella Amadei, Mildred Aiken, Elsie Adams, Margaret Baker, and Alice Fletcher. The prompter was Shirley Book, with Sally Pearl, Peggy Shaffer and Arleen Gibson in charge of the make-up.

Stage-hands were Johnny Allen, Lloyd Houk, Russell Mentzer, Ed Boyd, and Ed Terpilowski. Tickets were under the direction of Marion Adamczyk and Fred Duckworth.

Attractive gifts were presented to Anthony Venturella, director of the play, and the prompter. The cast later enjoyed a party at a local tea room.

Speed-Up In High Schools Suggested

NEW YORK, Dec. 15.—(INS)—The New York State Board of Regents proposed that high school studies be speeded up to permit graduation in three years because the time has come of "universal national service."

The board said this would enable students to get in one year of college work before beginning military training.

The board, which has control of school curricula in New York state, also suggested stepped-up courses in the colleges.

Speaks On Korea
The speaker of the afternoon was Stanley Kreiler, of the Youngstown police department, who spoke on Korea. Mr. Kreiler, who was stationed there during the war period, stated that most of the Koreans were not Communists, and did not have any sympathy for Communism. He stated that in the event that the Communists were successful in overrunning the country, that everyone who had helped the UN forces in any way, would likely be liquidated, as many already have been.
He stated that the danger of Communism reaches right into our own Community, and that in the Youngstown area, there are around 2,000 Communists who take their orders right from Moscow, who have been directed to proceed with sabotage efforts when the word is given.

THE FAMILY SCRAPBOOK

By DR. ERNEST G. OSBORNE

CHRISTMAS AND OTHERS

Christmas is peculiarly a family holiday. And many families prefer to have it stay completely that way. Now and again, though, sharing good times with the "stranger in our midst" adds to the joys of the day.

This season, unfortunately, a good many more boys will be in uniform far from their own homes. While we know that the Army and Navy will do everything possible. And how much it will mean to them if they can be in some home on Christmas Day!

There are others, too, with whom we can share our holiday pleasures. In our particular neighborhood there are many students from abroad. We have enjoyed having a half-dozen or so participate in the festivities. And what fun it was for our children to hear how Christmas was spent in Bulgaria, France, or even China!

Almost certainly, if you look around, ask the minister or priest whether he knows of strangers who would welcome your hospitality, you will find someone to whom your home on Christmas will mean a great deal.

Blair House Is Claimed Fire Trap

WASHINGTON, Dec. 15.—(INS)—Blair House, official temporary residence of President Truman and scene of the recent attempt on his life, is considered a "fire-trap" by the chief of the Secret Service.

Baughman, appealing for funds for 41 additional White House police officers, declared:

"The Blair House is one of the poorest places for security—it is terrible.

"As a matter of fact, it is a fire trap."

Baughman also asked for 27 additional secret service agents to "augment presidential protection."

The Secret Service chief told the committee the November 1 assassination attempt "established the urgent need for a strong Secret Service and White House police force to meet emergency situations which now more than any time before must be anticipated."
